2024

Annual Report

Volume 50

a publication of the
Health Records Division

FOREWORD

This fiftieth Volume of the Government Health Services Statistics Report, published by the Health Records Division of the Ministry of Health and Wellness, deals with activities of major health service departments of public health institutions. The health service delivery and medical data contained herein should be a useful tool for decision-making and policy formulation to administration, assist in research and should eventually blend in history.

We wish to remind our dear readers that most data are being kept in databases which allow for generation of more reports than those presented herewith. These can be made available on request. Data processing for this Report is a system review that realigns procedures and systems every year.

This year, new additions include activities of the SAMU Department at page 19. Petite Riviere AHC, Bel Air AHC, Grand Bois CHC and Stanley CHC have been converted to Mediclinic in 2024. New Grove CHC has been upgraded to AHC and a new CHC was opened at Batimaraïs while La Lucie Roy CHC was closed this year. Autism Day Care Centre at Bois Cheri was started in 2024. Occupational Health Medicine Service was introduced at Quartier Militaire Mediclinic, Bramsthan AHC and Grand Bois Mediclinic. The decentralisation process which started in 2022 was reinforced in 2023 and this year also more outpatient services were introduced at primary health care centres. Additionally, more specialist clinics have been set up at Long Mountain and Yves Cantin Community Hospitals. For the first time, activity of the Endoscopy Unit and death cases according to primary cause of deaths and disaggregated by gender and age are being published for the Island of Rodrigues.

Other support services which are not appropriately covered are kindly requested to liaise with this Office. Although the new appellation of Flacq Hospital is Sir Anerood Jugnauth Hospital, the former (FH) is still being maintained in this Report to facilitate referencing with previous ones.

Data of previous years may differ from earlier Volumes of the Report owing to adjustments carried out consequent to availability of new information that were not reported earlier.

Activities of Rodrigues are reported separately with a summary provided herewith.

This Report is the fruition of the timely provision of data by the service providers. We wish to thank all service providers, Heads of Cadres, hospital authorities, Senior Health Records Officers and their staff and management at the level of this Ministry for their continued support. We are also grateful to management and health personnel in Rodrigues and Agalega Islands hoping to enjoy such loving support for years to come.

October 2025

G.R Lall Mahomed
Chief Health Records Officer

CONVENTIONS

Alphabetical order of headings has been used as far as possible except for health institutions which have been grouped according to Health Region.

Shaded Cell	Service is not available
Blank Cell	Service exists and data of zero magnitude has been encountered
- -	Data is not available
~	Number of beds for this specialty not specifically allocated
Italics	Used in figures for percentages, averages and decimal points
()	Data in brackets usually denote that they are included in that section
[]	See footnote

Health facilities are designated according to their geographical location as far as possible for easier identification.

Overview of the Public Health Service in 2024

Mauritius had an estimated mid-year resident population of 1,201,245 inhabitants in 2024 comprising 594,895 males and 606,350 females. 19.4% of the population was under 18 years of age, 59.6% was between 18 to 59 years and 21.0% was 60 years and above. Estimated mid-year resident population by Health Region was as follows: 306,170 inhabitants in Health Region I, 231,153 in Health Region II, 164,696 in Health Region III, 179,874 in Health Region IV and 319,352 in Health Region V.

Public health institutions are grouped under the five Health Regions and comprise 5 Regional Hospitals, 2 District Hospitals, 6 Specialised Hospitals, 2 Community Hospitals, 12 Mediclinics, 17 Area and 111 Community Health Centres. Under other specialised services, there is the Chest Clinic at Port Louis, an Ayurvedic Health Centre at La Source in Central Flacq and 3 Autism Day-Care Centres at Triolet, Beau Bassin and new at Bois Cheri since April 2024.

Services at public health institutions are provided free of user costs to Mauritians.

Excluded: Infrastructure, tools and equipment and services provided by the Harm Reduction Unit and the Government Analyst Division						

Petite Riviere AHC, Bel Air AHC, Grand Bois CHC and Stanley CHC have been converted to Mediclinic in August, April, July and May respectively. New Grove CHC upgraded to AHC in October. A new CHC was opened at Batimarais in March and La Lucie Roy CHC was closed

in December. Autism Day Care Centre at Bois Cheri was started in April. Occupational Health Medicine Service was introduced at Quartier Militaire Mediclinic, Bramsthan AHC and Grand Bois Mediclinic. All public health institutions, except for the Specialised Hospitals and Services, provide primary care and basic curative services. A referral system is in place for patients requiring specialist advice at the Sorted OPD. The decentralisation process started in 2022 was reinforced this year with more outpatient services introduced at primary health care centres. Additionally, more specialist clinics have been set up at Long Mountain and Yves Cantin Community Hospitals.

Indicative hours of work of some main services are as follows.

Table 2: Hours of work

Service	Hours of Work
Unsorted OPD at Regional Hospitals	8.00hrs to 22.00hrs everyday Operational on a 24 hours basis at Victoria Hospital since April 2023. At J Nehru Hospital, registration of patients is carried out at the Accident and Emergency Department and patients are seen at the Orthopaedics OPD after working hours.
Unsorted OPD of Mahebourg Hospital Unsorted OPD of J Nehru Hospital	8.00hrs to 16.00hrs on weekdays 8.00hrs to 12.00hrs on Saturdays Operational till 22.00hrs as from 01.03.2024
Flu Clinics at Regional Hospitals	Operational from 8.00hrs to 22.00hrs at J Nehru Hospital and Flacq Hospital. 08.00hrs to 18.00hrs at Victoria Hospital, 08.00hrs to 16.00hrs at SSRN Hospital on weekdays and 08.00 to Noon on Saturday
Sorted OPD consultations	8.00hrs to 16.00hrs on weekdays 8.00hrs to 12.00hrs on Saturdays (optional)
Mediclinics	8.00hrs to 21.00hrs except at L'Escalier Mediclinic which closes at 18.00hrs.
Area Health Centres , except Flacq, Rose Belle and Vacoas Club Rd AHCs Blood Collection	8.00hrs to 18.00hrs on weekdays, except at Riviere du Rempart which closes at 19.00hrs. 8.00hrs to 12.00hrs on Saturdays 9.00hrs to 12.00hrs on Sundays and public holidays 7.00hrs to 8.00hrs (on specific days)
Community Health Centres including Flacq, Rose Belle and Vacoas Club Rd AHCs 5 CHCs carry out extended sessions from 16.00hrs to 18.00hrs on specific days of the week and from 9.00hrs to 12.00hrs on Sundays and Public Holidays.	8.00hrs to 16.00hrs on weekdays 8.00hrs to 12.00hrs on Saturdays
Service departments	Usually between 8.00hrs to 16.00hrs on weekdays and from 8.00hrs to 12.00hrs on Saturdays. However, some departments do not operate on Saturdays.

Patient documentation is still paper-based in public health facilities.

Services available at public health institutions

Hereunder are listed major health-related services provided by public hospitals and primary health care centres, most of which basically include nursing, health records and pharmacy services.

Executive Summary - Mauritius

1.1 **Contacts at public health institutions**

9,335,775 contacts have taken place at the essential public health service points indicating activities have returned back to the 2019 pre-pandemic era. With an increase of 5.4% in attendances in 2024, average daily attendance has reached the 25,000+ visits of a normal year with 25,508 visits this year.

1.2 **Ambulatory attendances**

1.2.1 5,177,302 visits were registered at the Accident and Emergency Departments, Sorted and Unsorted Outpatient Departments of hospitals and primary health care facilities. Combined attendances of the Accident and Emergency Department, Unsorted and Sorted OPDs have gone down by 0.3% but visits at primary health care centres have increased by 3.6%.

1.2.2 Out of 8,044 specialist sessions held at primary health care centres, 244 sessions were wasted as no patients were scheduled.

1.2.3 Among Regional Hospitals, Victoria Hospital has reckoned the least of deaths at the Accident and Emergency Department with an average of 26 deaths annually in the last five years compared to 59 deaths for the remaining regional hospitals.

1.3 **Dental Service**

1.3.1 239,905 visits were encountered indicating 3.0% decrease this year and also indicated a drop of 2.2% for period 2020 to 2024. In the last five years, workload has decreased by 9.2% and 0.8% annually at the Oral Surgery and Orthodontics services respectively but has increased at the Endodontics service by 16.9%.

1.4 **Ayurvedic Service**

Doctor consultations amounted to 43,053 visits indicating an increase of 10.3% and attendance for Panchakarma has also increased by 32.4% in 2024 culminating to an increase of 11.5% on overall attendance in 2024. However, total visits showed a drop of 3.8% annually in the last five years.

1.5 **Support Services**

1.5.1 Activity at most service departments has increased except for drops of 29.6% at Audiology, 10.8% at Speech Therapy, 10.0% in Tobacco Cessation, 0.5% at Haemodialysis, and 1.2% at Medical Social Services.

1.5.2 New cases have gone down at three departments only; by 5.2% in Medical Social Services, 3.7% in Speech Therapy and 1.3% in Occupational Therapy.

1.5.3 Haemodialysis sessions held at public hospitals have increased by 0.2% while it has gone down by 4.5% at private clinics.

1.6 Inpatient Service

1.6.1 3,585 beds were available on average during the year which accommodated 172,986 admissions for 892,436 days of stay. Bed occupancy has gone down from 74.2% in 2023 to 69.2% this year. One of the reasons being the opening of 12 new wards with an addition of about 130 beds at SAJ Hospital. Average length of stay was 5.3 days.

1.7 Deaths

1.7.1 6,093 in-patient deaths occurred at public hospitals. Additionally, 289 patients died at the outpatient services while 672 were brought in dead.

1.8 Patients awaiting surgery, procedure or radiological examination

1.8.1 8,804 cases were either on waiting or booked lists indicating 9.1% drop against the previous year. It comprised 3,474 cases for surgery, 2,285 for procedures and 3,045 for specialised radiological examinations. Cases awaiting surgery have gone down by 26.6% and radiological examinations have decreased by 0.6% while procedures have increased by 21.4% as compared to last year.

1.8.2 Ophthalmology cases remained the highest this year too and constituted 60.5% of all cases awaiting surgery followed by only 589 cases in General Surgery among others.

1.8.3 Waiting time for surgery has gone down from 16.4 weeks in 2023 to 6.3 weeks in 2024 and procedures from 9.5 weeks to 8.6 weeks. A decrease was noted in the list of radiological examinations with a waiting time of 2.3 weeks.

1.8.4 161 cases of Cardiac Surgery, 1,607 cataracts, 146 cases of lithotripsy, 80 AV Fistula cases, 1,248 cases of angiography/angioplasty and 372 CT-Scans among others were waiting at the end of the year.

1.9 Operation Theatre usage

1.9.1 4,020 operating sessions were unused in 2024 which represented 24.5% of total available operating sessions compared to 22.0% in 2023 indicating an increase in unused sessions.

1.9.2 Souillac and J Nehru Hospitals have reckoned the highest of unused theatre sessions. Patients were not available in a total of 1,326 sessions while 1,104 sessions remained idle.

1.10 Surgeries Performed

1.10.1 51,323 surgeries were carried out indicating 1.7% decrease against an increase of 5.9% the previous year. Neurosurgeries have been increasing for the fourth consecutive year to reach 1,068 surgeries, while ENT Hospital has registered 46.6% increase in paediatric surgeries.

1.10.2 19 foreign teams have undertaken 22 visits in almost all main specialties, except for paediatric surgery. 913 outpatients were seen in 39 clinic sessions and 362 surgeries were carried out including 16 in Cardiac Surgery and 230 in Ophthalmology.

1.11 Deliveries

1.11.1 7,934 deliveries took place at public hospitals depicting 4.7% rise while caesarean sections were the highest ever attained, representing 57.9% of all deliveries. Maternal deaths have decreased, perinatal deaths have also gone down accounting for 1.6% of all births while neonatal deaths have increased to 1.4% as compared to the previous three years. However, low birth weight among newborns have decreased to 23.4% while prematurity has increased from 9.4% in 2023 to 10.3% this year.

1.12 Procedures, Examinations and Tests

1.12.1 Most of the above have increased in 2024: MRIs by 24.9%, Electroconvulsive Therapy by 24.0%, tubal ligation by 19.7%, ophthalmology laser by 16.8%, endoscopy by 5.5%, angiographies by 0.9% while Lithotripsy, chemotherapy and CT scan indicated a decrease of 28.1%, 5.4% and 2.8% respectively among others.

1.12.2 Pathological tests have increased by 6.3% with more than 16 million tests done in 2024 and x-rays have gone up by 4.0% with more than 800,000 examinations.

1.13 Surveillance of diseases and related conditions

1.13.1 41,087 cases of Conjunctivitis have been registered with an increase of 29.7% compared to 2023 and 160,073 cases of Gastroenteritis representing an increase of 30.8%, whereas URTI attended was 582,756 showing a decrease by 9.6% and scabies seen was 2,260 representing an increase by 28.9%.

1.13.2 1,109 patients were following treatment for Type I diabetes including 86 children of under 15 years and new cases of Gestational Diabetes have gone up this year amounting to 1,634 cases.

1.13.3 Domestic Violence cases have gone down by 4.3% this year after showing a major increase of 36.0% in 2023. However, cases have been increasing by 13.5% among males but has gone down by 2.5% in females annually in the last five years. 143 cases of abuse against children were registered indicating an increase of 52.1% in 2024 culminating in a rise of 9.4% in the last five years.

1.13.4 At Brown Sequard Mental Health Care Centre, new cases of mental retardation have gone down from 41 in 2023 to 6 cases in 2024 with drops registered in almost all the other disease groups. Mood affective disorders, Neurotic and stress disorders and Mental disorders due to psychoactive substances have gone down by 25.4%, 25.3% and 21.5% respectively among others while a rise of 68.9% was noted for disorders of psychological development.

1.13.5 First-time amputations have decreased by 4.8% and represented 65.4% of the 661 non-traumatic amputations carried out. Total amputations have decreased by 8.6%. 203 persons lost one leg through amputation in 2024 and 4 others have lost both feet.

1.13.6 The Chest Clinic reported 99 new cases of pulmonary tuberculosis indicating 1.0% decrease compared to 2023.

- 2.1.4 Flu Clinics at Regional Hospitals have attended to 65,400 influenza-like-illness (ILI) cases. 1,483 polymerase chain reaction (PCR) tests were performed backed by rapid antigen tests (RAT) for confirmation of Covid-19.
- 2.1.5 Cases registered at Flu Clinics has gone down significantly from 105,922 cases in 2023 to 65,400 cases in 2024. Cases at all hospitals registered between 20% to 92% drop culminating in a 38.3% drop as compared to 2023.
- 2.1.6 Attendance has gone down by 1.4% at the Accident and Emergency Department and by 38.3% at Flu Clinics while it has increased by 16.5% at the Unsorted OPD. Combined attendance of the three departments has increased by 1.2% in 2024.

- 2.1.7 Average attendance at Accident and Emergency Department of all hospitals has increased to 3,094 cases per day, 1,492 cases at the Unsorted OPD and 173 cases at Flu Clinics.
- 2.1.8 Among Regional Hospitals, Dr A G Jeetoo Hospital has catered to around 880 cases per day, 852 cases by Victoria Hospital 659 cases by SSRN Hospital and 595 cases at Flacq and 544 cases by J Nehru Hospital. As regards the remaining hospitals, S Bharati Eye Hospital catered for some 285 cases per day followed by 246 cases at ENT Hospital, 212 cases at Souillac Hospital, 193 at Mahebourg Hospital, 139 cases at Montagne Longue Hospital, 113 at Dr Yves Cantin Community Hospital and 40 cases at Brown Sequard Mental HCC.
- 2.1.9 Mondays were still the busiest day of the week with some 5,540 visits at the Accident and Emergency Department and Unsorted OPD decreasing to 3,941 cases on Saturday. Peak hours of work were still between 8.00hrs to 12.00hrs at almost all hospitals.
- 2.1.10 632,354 radiology examinations were carried out at the Accident and Emergency Department and Unsorted OPD of hospitals indicating 7.9% increase compared to 2023. 40,527 patients (50.3%) returned to collect their Dry Film Reports subsequently.

2.2 Deaths

- 2.2.1 289 deaths have occurred at the Accident and Emergency Department and primary health care centres, out of which 247 took place at Regional Hospitals. Flacq Hospital reported 26 such deaths only while the other Regional Hospitals had between 33 to 96 deaths. It is also to be pointed out that Mahebourg Hospital reported 8 deaths in 2023 and 7 in 2024 and Goodlands Mediclinic reported 2 deaths in 2023 and 1 in 2024. This year 1 death was reported at Triolet, Quartier Militaire and Belvedere Mediclinics.
- 2.2.2 Deaths were attributed to diseases of the Circulatory System in 143 cases, 37 to those of the Respiratory System, 21 due to Infectious and Parasitic Diseases and 17 due to injuries.
- 2.2.3 Cases have gone up by 18.0% in 2024 but pinpoints towards 5.9% increase annually for period 2020 – 2024.
- 2.2.4 Additionally, 672 brought-in-dead cases were encountered depicting 11.4% increase compared to 2023 and 1.1% average increase annually for the last five years.
- 2.2.5 Of the 961 deaths encountered at health institutions, 244 of the persons who died were between 40 to 59 years while 311 were 60 years and above. (5 unspecified age).

2.2.6 60 deaths occurring at facility level were referred to the Police Medical Officer in addition to 342 brought-in-dead cases (5 male patients of unspecified age).

2.3 SAMU

2.3.1 14,673 emergency interventions were handled by the SAMU Service of 6 hospitals comprising of the 5 Regional Hospitals and Souillac Hospital in 2024. It consists of 10,171 primary interventions where medical care and treatment were provided on-site and 4,502 secondary interventions, which constitute mainly of inter-hospital transfers of very sick patients. This also includes 122 Sanitary Evacuation, where critically ill or injured patients were evacuated to the nearest hospital for further treatment.

2.3.2 SAMU Service of Victoria Hospital attended the highest number of interventions with 3,112 (21.2%) followed by 2,985 (20.3%) interventions by SAMU of Dr A G Jeetoo Hospital, 2,887 (19.7%) by Flacq Hospital, 2,501 (17.0%) by SSRN Hospital, 2,240 (15.3%) by J Nehru Hospital and 948 (6.5%) by Souillac Hospital.

2.3.3 765,250 calls were received by the SAMU Control Centre, of which 48,082 were dealt with by the SAMU Department. 24,716 calls were found to be non-emergency cases and they were attended to by hospital ambulance. 1,489 were brought by Police and 2,245 attended by their own means. Medical advice was tendered on phone to 2,019 individuals. 23 of the calls happened to be fake ones and 260 calls were hung up during conversation. After investigation, 2,315 requests were cancelled and 342 requests were not required.

Sorted OPD

The Sorted Outpatient Department caters for patients requiring regular follow-ups by specialists through an appointment system. However, off-appointment cases are accommodated on a need's basis.

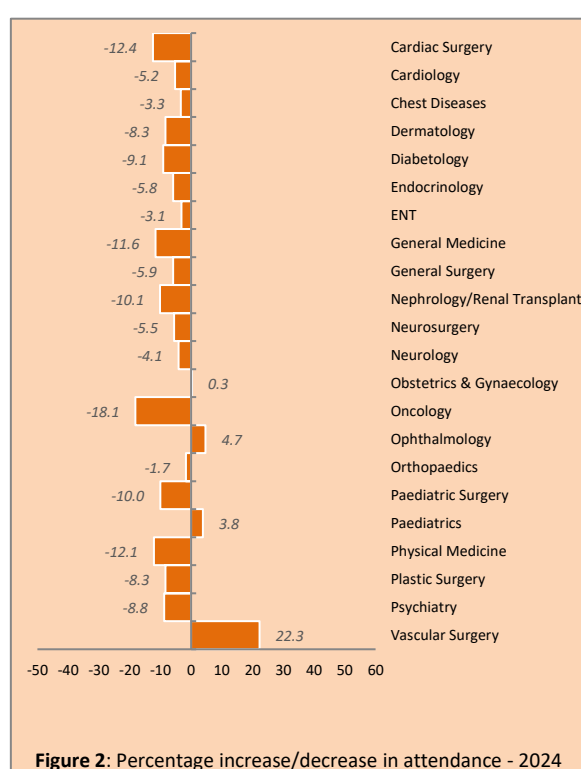

- 3.1.1 Decentralisation of specialist services to district and community hospitals and primary health care centres which was started in 2022 at J Nehru Health Region has been strengthened in 2023 and this year also with increases of sessions at the other Health Regions.
- 3.1.2 Posts of specialists have increased since the last three years and have moved from 319 in 2023 to 329 in 2024.
- 3.1.3 653 clinic sessions were planned in a week at hospitals consisting of 595 specialist and 58 MHO sessions. Additionally, 38 clinic sessions were carried fortnightly and 11 sessions on monthly basis.
- 3.1.4 33,141 outpatient clinic sessions were held including 377 unscheduled sessions, indicating a decrease of 3.5%. 29,628 sessions were conducted by specialists and 3,513 by Medical and Health Officers.
- 3.1.5 Individual specialists have conducted 1 to 2 sessions per week in all specialties except for Dermatology, ENT, Gastroenterology and Physical Medicine where they have carried out more sessions per week.
- 3.1.6 Based on actual attendances, 24,756 clinic sessions (74.7%) have catered for less than 40 cases per session followed by 4,750 sessions (14.3%) having seen between 40 - 59 cases, 2,435 sessions (7.3%) have seen between 60 - 79 cases, 957 sessions (2.9%) between 80 - 99 cases and 243 sessions (0.7%) have catered for more than 100 cases.
- 3.1.7 Victoria Hospital has conducted 1,039 sessions of more than 60 cases followed by 687 sessions at Dr A G Jeetoo Hospital, 582 at S Bharati Eye Hospital, 531 at SSRN Hospital, 524 at Flacq Hospital, 183 at J Nehru Hospital, 62 at Souillac Hospital, 11 at Mahebourg Hospital, 8 at Brown Sequard Mental Health Care Centre, 6 at New Cancer Centre and 2 at the Chest Clinic.
- 3.1.8 978,303 cases were treated at the Sorted-Out Patient Department of hospitals depicting 4.9% decrease in activities in 2024. Additionally, Primary Health Care Centres have encountered 94,107 visits in 2024 as compared to 71,427 visits in 2023 indicating a rise of 31.8% in 2024.
- 3.1.9 New cases have gone down to 155,868 cases depicting 4.7% decrease in 2024.

3.1.10 Victoria Hospital has catered for the highest number of cases (217,146) as usual while J Nehru Hospital has recorded the lowest of 105,753 cases among Regional Hospitals. Attendance has decreased at almost all hospitals except for 69.7% rise at National Cancer Centre, 20.6% at ENT Hospital, 20.4% at Yves Cantin Community Hospital, 6.5% at S Bharati Eye Hospital, 2.6% at Mahebourg Hospital and 1.4% at DDY Cardiac Centre.

3.1.11 As usual, the Department of Cardiology has treated the highest number of 138,229 cases followed by 126,409 cases at Orthopaedics, 94,422 by General Surgery, 93,951 by Ophthalmology, 89,717 by Obstetrics and Gynaecology, 78,864 cases by General Medicine, 62,422 by Psychiatry, 50,101 by Oncology and 31,921 by Paediatrics, 30,984 by Dermatology, while the rest have catered less than 30,000 cases.

3.1.12 Attendance has decreased at all specialties except for 22.3% rise at Vascular Surgery, 21.4% at Gastroenterology, 4.7% at Ophthalmology, 3.8% at Paediatrics and 0.3% at Obstetrics and Gynaecology.

3.1.13 3,261 cases were seen on average daily at outpatient departments indicating a decrease of some 170 cases. Victoria Hospital has seen some 726 cases per day followed by 532 at Dr A Jeetoo Hospital, 504 at SSRN Hospital, 400 at Flacq Hospital and 354 at J Nehru Hospital among regional hospitals. While S Bharati Eye Hospital has catered to some 258 cases and New Cancer Centre to 163 cases daily, the remaining hospitals have seen less than 100 cases in 2024.

3.1.14 The ratio of New Cases to Follow-Ups which was 1:6 since 2017 has gone down to 1:5 in 2024.

3.2 Off-appointments

3.2.1 ENT Hospital did not entertain off-appointments at the outpatient department as they are seen on the same day at its Accident and Emergency Department.

3.2.2 1,575 patients turned up outside of their appointment and were seen at their respective specialist clinics which represented 0.2% of total outpatient attendances. 78.4% of the patients (1,235) were seen at Brown Sequard Mental Health Care, followed by 159

patients at Chest Clinic, 97 at Victoria Hospital and 84 at Yves Cantin Community Hospital.

3.3 DNA (Did Not Attend)

3.3.1 366,441 cases did not attend on appointment in 2024 representing 28.7% of total scheduled appointments. ENT Hospital has recorded 46.8% of DNAs followed by 37.9% at Dr A G Jeetoo Hospital, 35.8% at Yves Cantin Community Hospital, 33.7% at Flacq Hospital and 33.1% at Jawaharlall Nehru Hospital, 32.1% at Mahebourg, 30.3% at S Bharati Eye Hospital while the remaining hospitals have registered less than 30% of cases. The New Cancer Centre has recorded the least of 16.2% DNA cases.

3.3.2 42.4% of DNAs were recorded at ENT, 42.1% at Paediatrics, 39.0% at Early Dementia clinics followed by 38.9% in Orthopaedics, 38.0% in Dermatology, 37.8% in Neurology, 32.3% in Gastroenterology, 31.0% in Ophthalmology while the other specialties have recorded less than 30% of cases. The Department of Oncology has received the least of 9.8% DNAs.

3.4 Waiting Time

3.4.1 New patients did not have to wait in the specialties of Psychiatry at Brown Sequard Mental Health Care Centre and Neurosurgery clinics at Victoria Hospital as they were seen by specialists on the very day of attendance. At Dr Yves Cantin Community Hospital, new cases were seen at the next available outpatient session.

3.4.2 Average Waiting Time of new patients was 2.8 weeks while the highest was 5.3 weeks at S Bharati Eye Hospital and the lowest of 1.0 weeks at Long Mountain Community Hospital.

3.4.3 Longest waiting time was 7.0 weeks at Ophthalmology clinics followed by 4.8 weeks at Cardiology, 4.6 weeks at Neurology and 3.4 weeks at Endocrinology and 3.3 weeks at General Surgery. The Diabetology Department reckoned the shortest waiting time of 1.4 weeks only.

3.4.4 Exceedingly long waiting times were registered mainly at the Department of Ophthalmology where new patients were waited for 15.7 weeks at SSRN Hospital as compared to 10.5 weeks in 2023 followed by 13.0 weeks at Flacq Hospital, 8.2 weeks at J Nehru Hospital, 7.7 weeks at Dr A G Jeetoo Hospital, 6.3 weeks at Victoria Hospital.

3.5 Emergency cases seen by MHOs

3.5.1 Emergency cases referred to specialists are usually seen at the Accident and Emergency Department for General Medicine, General Surgery, Orthopaedics and Psychiatry cases while Obstetrics and Gynaecology cases are attended at their

- respective outpatient department at all hospitals. At Victoria Hospital, cases of Cardiology are seen at the Cardiac Unit while at Flacq Hospital, all children are seen by the Paediatrics MHO directly.
- 3.5.2 456,991 visits were encountered in 2024 comprising 118,946 cases at Victoria Hospital followed by 116,460 cases at Dr A G Jeetoo Hospital, 107,951 at SSRN Hospital, 66,980 at J Nehru Hospital and 46,654 cases at Flacq Hospital.
- 3.5.3 The Department of Paediatrics has treated the highest number of 107,779 cases followed by 86,245 by Orthopaedics, 84,374 by General Medecine, 59,136 cases by cardiology, 58,862 cases by Gynaecology and Obstetrics, 58,623 by General Surgery and 1,972 by the Department of Psychiatry.
- 3.5.4 1,252 patients were seen on average per day with 295 cases by Paediatrics, 236 by Orthopaedics and 231 by General Medicine.
- 3.5.5 Attendance has increased again this year by 4.8% following increases in 2022 and 2023 but indicates a 2.4% drop annually between 2020 and 2024.
- 3.6 Specialist Clinics at Primary Health Care Centres(refer Page117-120)**
- 3.6.1 It has been decided in 2022 to delocalise chronic cases from hospitals to new specialist clinics at district and community hospitals and primary health care centres. This year again it was reinforced with 36 new specialist clinics launched in addition to the 199 existing ones.
- 3.6.2 Outpatient clinic sessions have gone up from 6,598 in 2023 to 8,044 in 2024. Consequently, attendance has reached 94,107 cases depicting 31.8% increase.
- 3.6.3 94,107 cases were seen by specialists and consisted of 48,269 visits in the Department of Diabetology representing 51.3% of all cases. The Department of Psychiatry had attended to 13,568 cases followed by 9,378 by Obstetrics and Gynaecology and 7,035 in Physical Medicine while the other specialties of Cardiology, Chest Diseases, Dermatology, ENT, General Medicine, General Surgery, Ophthalmology, Orthopaedics and Paediatrics had seen less than 4,000 cases each.
- 3.6.4 An average of 12 cases was seen per session with the highest of around 22 cases seen by Rheumatologists per session and 1 – 5 cases per session by the specialties of Laser (Ophthalmology), Paediatrics and Cardiology.
- 3.6.5 Psychiatric clinics at L'escalier Mediclinic has seen an average of 47 cases per session and 41 cases at Rheumatology clinics of Goodlands Mediclinic but Cardiology, Dermatology, Paediatric and Psychiatric sessions had only 1 case per session whereas several Cardiology, Ophthalmology and Paediatric sessions did not have any visit.

Dental Service

4.1 Dental Service

- 4.1.1 Essential dental services including care and treatment, dental extractions, fillings and scaling, were provided at 49 service points comprising Regional, District and Community Hospitals, Brown Sequard Mental Health Care Centre, Mauritius Prisons and 38 primary health care centres. Full-week service was available at 32 service points and part-time service for 3 days in a week at 17 service points.

Table 10: Attendance 2024

Service	Attendance
Dental	215,349
Endodontics	10,407
Oral Surgery	7,484
Orthodontics	5,747
Outdoor Visits	918
Total	239,905

- 4.1.2 Overall attendance was 239,905 indicating 3.0% decrease in 2024. 215,349 visits were encountered at General Dental Service, 7,484 at Oral Surgery, 10,407 at Endodontics Service, 5,747 at Orthodontics clinics and 918 cases during outdoor visits.

4.2 General Dental Service

- 4.2.1 215,349 cases were treated at public health institutions where hospitals have catered for 62,426 cases (29.0%), 61,169 (28.4%) by mediclinics, 66,674 (31.0%) by AHCs and 25,080 (11.6%) by CHCs.
- 4.2.2 In 2024, 5 new dental services were operational at the following health institutions: ENT Hospital in February 2024, Stanley MC in July 2024, Grand Bois MC in August 24, Bramsthan AHC in Oct 24 and New Grove AHC in Oct 24. On the other hand, Beau Bassin AHC and Pandit Sahadeo CHC stopped their activities as from October 2023 and February 2024 respectively.
- 4.2.3 An average of 19 cases was seen daily with the highest of 27 cases at Plaine Verte mediclinics and Grand Bay Community Health Centre. The lowest of 7 cases had been recorded at the Brown Sequard Mental Health Care Centre.
- 4.2.4 47,773 permanent tooth extractions were carried out comprising 560 extractions on children and 47,213 on adults. Additionally, 12,334 deciduous tooth extractions were carried out on children.
- 4.2.5 Extraction of deciduous teeth in children which was increased in 2023 by 13.6% has gone down this year by 1.4%. Extraction of permanent teeth in children has increased by 22.8%. However, overall extraction of permanent teeth has gone up by 1.2% this year.

- 4.2.6 Dental filling was performed on 10,622 children in 2024 as compared to 12,020 children in 2023 showing a decrease of 11.6% and by 2.4% in adults.
- 4.2.7 Scaling has increased by 1.2% while application of Pit and Fissure Sealant has gone down from 1,266 in 2023 to 277 in 2024 due to lack of materials.
- 4.2.8 Attendance at General Dental Service which has been increasing since 2022, has gone down by 3.0% this year and showed an average annual decrease of 2.2% annually for period 2020 to 2024.

4.3 Endodontics

- 4.3.1 The Service was available for the whole week at Dr A G Jeetoo Hospital, SSRN Hospital, Sir Aneerood Jugnauth Hospital, thrice a week at Phoenix CHC Baie du Tombeau CHC, Goodlands mediclinic four days at Victoria Hospital and two days at Souillac Hospital. The Service were introduced at Goodlands Mediclinic as from April 2024.
- 4.3.2 10,407 visits were registered in 2024 compared to 9,894 in 2023 comprising 3,501 new cases and 6,906 follow-ups.
- 4.3.3 Root canal treatment was provided to 56.2% of all visits while 7 cases on average were seen per session.
- 4.3.4 Attendance has been increasing since 2021 and has once again increased this year by 5.2% and by 16.9% on average annually for period 2020 to 2024. This is the first time that attendance at this Service has encountered more than 10,000 visits.

4.4 Oral Surgery

- 4.4.1 The Service was available at Dr A G Jeetoo Hospital, SSRN Hospital, J Nehru Hospital and ENT Hospital.
- 4.4.2 7,484 visits were registered comprising 3,657(48.9%) non-surgical and 3,827(51.1%) surgical interventions. Visits have gone down by 1.6% in 2024.
- 4.4.3 Dr A G Jeetoo Hospital has catered for 28.4% (2,123) of the cases followed by 27.6% (2,068) at ENT Hospital, 27.0% (2018) at SSRN Hospital and 17.0% (1,275) at J Nehru Hospital. Attendance has gone down at all health institutions except a slight increase at A G Jeetoo Hospital and ENT Hospital. New cases accounted for 45.5% of total attendance and 7 cases were seen on average per session.
- 4.4.4 Attendance has gone down by 1.6% in 2024 with an average annual decrease of 9.2% for period 2020 to 2024. New cases have almost remained the same

4.5 Orthodontics

- 4.5.1 Orthodontics Service was available for the whole week at SSRN and Victoria Hospital, three and a half days at J Nehru Hospital and two days a week at Dr A G Jeetoo Hospital
- 4.5.2 5,747 visits were recorded in 2024 comprising 529 new cases and 5,218 follow-ups. An average of 9 visits was recorded daily with the highest of 13 visits at J Nehru Hospital and the lowest of 7 visits at Victoria Hospital.
- 4.5.3 J Nehru Hospital has carried out 249 laboratory sessions followed by 154 at SSRN Hospital, 133 at Victoria Hospital and 96 only at A G Jeetoo Hospital.
- 4.5.4 Attendance has decreased by 1.9% in 2024 and by 0.8% for annually for period 2020 to 2024.

4.6 Outdoor Activities

- 4.6.1 Outdoor visits were conducted at sixteen (16) sites where 48 children were exclusively screened. 112 dental extractions were carried out including 99 permanent tooth extractions. Dental filing was performed on 2 children and 369 adults and Scaling on 207 patients. Activities stopped in April 2024.

4.7 Overall

- 4.7.1 Overall attendance at Dental Services which was going up in the preceding years has now decreased by 3.0% in 2024 and by 2.2% every year for period 2020 to 2024.
- 4.7.2 Attendance has once again increased in Endodontics by 5.2 % in 2024 as in the preceding years.

Ayurvedic Medicine Service

- 5.1.1 Ayurvedic Medicine Service was available at seven service points throughout the island. Panchakarma therapy was available at all centres except Grand Bois Medi clinic. Classification of diseases in this Service differs from that of mainstream medicine. New services were started at Grand Bois Mediclinic since July 2024.
- 5.1.2 All service points have conducted between 9 - 10 consultation sessions per week in 2024. However, overall sessions have gone down by 2.6% in 2024.
- 5.1.3 43,053 cases were seen in 2,769 consultation sessions with average attendance per session being 16 cases but ranging between 11 - 29 cases at service points. Attendance has increased by 10.3% after a decrease in 2023.
- 5.1.4 Attendance has gone down at all centres except at Victoria Hospital and SSRN Hospital which have reckoned increases of 54.4% and 1.0% respectively.
- 5.1.5 New cases have increased significantly from 1,916 to 3,880 cases at Victoria Hospital showing a rise of 102.5% in 2024. Total new cases have increased by 20.0% in 2024 after a decrease of 11.9% in 2023 with drops of 20.7% at SSRN Hospital and 16.2% at Belvedere Mediclinic respectively among others. New cases represented 21.2% of total attendance.
- 5.1.6 Additionally, the Panchakarma Service registered 2,965 cases in 2024 showing an increase of 32.4% compared to 2023. New services were started in 2024 at La Source Ayurvedic Centre. 54.4% of the cases were carried out at Belvedere Mediclinic where the service functioned normally while it was sporadically carried out at the other institutions.
- 5.1.7 The Haemopoietic System once again had the highest of 2,002 cases followed by 1,729 cases of Skeletal Diseases, 1,604 cases of the Alimentary System and 1,502 cases of Head and Neck Diseases. New cases of diabetes have almost remained the same, culminating in 1,385 cases comprising 71.5% of females.
- 5.1.8 With total visits arising to 46,018 overall attendances has increased by 11.5% this year after having gone down in 2023. Total visits indicated a 3.8% annual drop in the five-year interval of 2020 - 2024.

Support Services

Support Services provide professional back-up to doctors in the care and treatment of patients and include the following professional groups among others: Autism Day Care, Clinical Psychology, Diet and Nutrition, Foot Care, Haemodialysis, Hydrotherapy, Hyperbar Medicine, Medical Social Service, Occupational Health Medicine, Occupational Therapy, Orthopaedic Appliances Workshop, Physiotherapy, Podiatry and Foot Care, Retinal Screening, Smoking Cessation and Speech Therapy and Audiology.

6.1 Autism Day Care

6.1.1 This service was provided at Triolet Autism Day Care Centre, Brown Sequard Mental Health Care Centre and at Bois Cheri Autism Centre since April 2024. 89 patients followed treatment at Triolet Autism Centre, 713 general consultations were carried out at Triolet Autism Centre and 791 occupational therapy, 361 psychiatry, 396 psychology and 248 speech therapy consultations were conducted. 93 patients were following treatment at Brown Sequard Mental Health Care Centre and 793 occupational therapy, 185 psychology and 195 speech therapy consultations were carried out. 57 patients were following treatment at Bois Cheri Autism Centre, 160 general consultations were carried out and 250 Occupational Therapy, 135 Psychology, 120 Speech Therapy.

6.2 Clinical Psychology

6.2.1 This Service is available at Regional Hospitals and Brown Sequard Mental Health Care Centre.

6.2.2 17,791 cases were treated in 3,046 sessions indicating 6.7% decrease in sessions while attendance has increased by 13.0% and new cases by 2.0% in 2024. Cases have increased by 59.7% at Dr A G Jeetoo Hospital while it has gone down by 0.5% at B Sequard Mental Health Care Centre among others. New cases represented 25.5% of all attendances.

6.2.3 Attendance was the highest compared to previous years and showed an annual increase of 9.2% for period 2020 – 2024.

6.3 Diet and Nutrition

6.3.1 Sessions were held at Regional, District and Community Hospitals and 135 Primary Health Care Centres.

6.3.2 31,421 cases were seen in 3,904 sessions at hospitals while Primary Health Care Centres additionally catered for 25,508 cases in 2,996 sessions.

6.3.3 195 talks were carried out and 5 Mobile Kitchen Demonstration were held.

6.3.4 New cases comprised 66.1% of all visits but showed 8.5% increase as compared to 2023.

6.3.5 Attendance has increased by 7.8% in 2024 after having gone down in 2023. For period 2020 – 2024, attendance showed a drop of 4.9% annually.

6.4 Haemodialysis

6.4.1 Haemodialysis is carried out at all Regional Hospitals, Long Mountain Community and Souillac Hospital. 242 dialysis machines were available at public hospitals and 77 in six private clinics with 3 sessions carried out by each machine on average every

day. Quartier Militaire Medclinic started to provide Haemodialysis services as from July 2024.

6.4.2 1,288 patients were administered 191,236 dialysis sessions at public hospitals and 32,794 sessions to 234 patients in private clinics amounting to 224,030 sessions for 1,522 patients.

6.4.3 Patients have increased by 2.7% in 2024 while sessions have gone down by 0.5%. As for period of 2020 to 2024, machines have increased by 4.2% on average every year, patients by 1.8% and sessions by 1.4%.

6.4.4 582 deaths have occurred at public hospitals and 36 at private institutions. Data of previous year's show some 45% of yearly deaths among patients undergoing haemodialysis at public hospitals against 15% at private clinics.

6.5 Hydrotherapy

6.5.1 No sessions as swimming pool have been out of order since 2019.

6.6 Hyperbar Medicine

6.6.1 Available at Victoria Hospital only, 121 patients have accessed the service in 60 sessions in 2024.

6.6.2 Usage of this service has been erratic over the years partly due to machine breakdown.

6.7 Medical Social Service

6.7.1 The Medical Social Service was available at all hospitals except Long Mountain Community Hospital. Medical Social Workers posted at Regional Hospitals performed outdoor visits also.

6.7.2 The Department attended to 25,576 cases indicating 1.2% drop in 2024. Attendance included 5,628 (22.0%) new cases showing a drop of 5.2% this year.

6.7.3 6,766 cases were recorded at Brown Sequad Mental Health Care Centre followed by 5,181 cases at Dr A G Jeetoo Hospital, 4,589 at SSRN Hospital, 3,343 at J Nehru Hospital, 3,188 at Victoria Hospital, and 2,129 at Flacq and less than 140 cases at the remaining ones. Cases have increased at AG Jeetoo Hospital, J Nehru Hospital SSRNH and Flacq but has gone down at Victoria Hospital and B Sequad MHCC in 2024.

6.7.4 Medical Social Workers have conducted 2,026 psycho-social enquiries and attended to 735 cases of General Welfare Assistance. They have also attended to 371 cases of

teenage pregnancy, 130 child abuse cases, 234 cases of attempt at suicide, 137 Domestic Violence, 186 sexual abuse and 50 depression cases among others. They have also carried out 512 home and outdoor visits and attended to 872 repatriation cases.

- 6.7.5 New cases of sexual abuse have increased by 12.0%, 8.8% attempt at suicide, teenage pregnancy by 12.4%, but has gone down in child abuse by 31.6 %, Domestic Violence by 30.1% and Depression by 10.7%. New cases on the whole have decreased by 6.4% in 2024.
- 6.7.6 Attendance has gone down by 1.2% in 2024 by 1.0 annually for period 2020 to 2024.

6.8 Occupational Health Medicine

Clinics were held four times weekly at Victoria Hospital, thrice weekly at J Nehru, twice weekly at Dr A G Jeetoo Hospital, SSRN Hospital and Flacq Hospital and once weekly at Long Mountain Hospital, Mahebourg and Souillac Hospitals. Visits were also carried out at worksites.

- 6.8.1 9,826 visits were registered in 707 sessions with an average of 14 cases per session. As usual, highest attendance was registered at Victoria Hospital with 3,971 visits which was followed by 2020 visits at J Nehru Hospital.
- 6.8.2 New cases increased by 4.8% in 2024 after a decrease in 2023. All hospitals have registered an increase in new cases in 2024 except Flacq, SSRN and Souillac Hospitals. Victoria Hospital has shown a major increase of 28.2% in 2024.
- 6.8.3 Activity has gone up at all hospitals except at SSRN, Flacq and Dr A.G. Jeetoo Hospitals where it has gone down by 51.2%, 39.9% and 22.3% respectively.
- 6.8.4 Attendance has increased by 7.0% in 2024 as in 2023 and 5.8% on average annually for period 2020 to 2024.

6.9 Occupational Therapy

- 6.9.1 Occupational Therapy Service was available at Dr A G Jeetoo Hospital, SSRN Hospital, Flacq Hospital, J Nehru Hospital, Brown Sequard Mental Health Care Centre and ENT Hospital.
- 6.9.2 Activity has gone up in all Hospitals in 2024. A major increase of 44.2% and 32.2% has been noted at SSRNH and ENT hospitals. 4,137 new cases were registered showing a decrease of 1.3.% compared to a major increase of 28.3% in 2023.

6.9.3 Attendance has gone up by 12.9% in 2024 and 4.2% on average annually for period 2020 to 2024.

6.10 Orthopaedics Appliances Workshop

6.10.1 This Service was available at all Regional Hospitals which provided inpatient service. However, outpatients of Dr A G Jeetoo Hospital and Victoria Hospital opt to attend the Workshop at Beau Bassin instead of waiting for the monthly hospital sessions.

6.10.2 The department has catered for 23,953 visits comprising 1,456 inpatients and 22,497 outpatient visits. As in the previous years, SSRN Hospital has registered the highest of 4,527 cases followed by Flacq Hospital with 3,251 cases, 1,793 cases at J Nehru Hospital, 627 cases at Victoria Hospital and 268 cases only at Dr A G Jeetoo Hospitals. However, the Beau Bassin Workshop has catered for 51.6% of all outpatients with 13,487 cases.

6.10.3 19,929 appliances were produced and supplied to patients including 7,120 belts, 6,123 braces, 2,681 pads and 1,116 collars among others. Additionally, 1,014 repairs were effected.

6.10.4 Activity has gone up by 7.0% in 2024 as well as by 8.0% in supply of appliances and 41% for repairs. However, activity has increased by 4.1% annually in the five-year period of 2020 - 2024.

6.11 Physiotherapy

6.11.1 The Service was available at Regional and District Hospitals. 134,846 cases were seen consisting of 88,539 outpatients and 46,307 inpatients. 35,368 new patients were registered representing 26.2% of all cases. Cases have gone up for the last two years and by 7.0% in 2024.

6.11.2 As in the preceding years, Victoria Hospital catered for the highest of 31,704 visits followed by 29,391 cases at SSRN Hospital, 29,057 cases at Dr A G Jeetoo Hospital, 24,778 cases at Flacq Hospital and 14,474 cases at J Nehru Hospital.

6.11.3 Attendance has gone up by 7.0% in 2024 after having increased in 2023 but indicated a drop of 3.2% annually for period 2020 - 2024.

6.12 Podiatry and Foot Care

6.12.1 Podiatry Service was available at Victoria Hospital only. Foot Care clinics were carried out at Regional Hospitals except SSRN Hospital where it was carried out at Goodlands Mediclinic. Furthermore, the service was also available at Souillac Diabetes and Vascular Health Centre, Long Mountain Community Hospital, Dr Yves Cantin Community Hospital and fifteen Primary Health Care Centres.

- 6.12.2 1,712 cases were seen at Podiatry clinics of Victoria Hospital in 544 sessions. Activity has increased in 2024. Cases have however gone down by 37.3% for period 2020 to 2024.
- 6.12.3 42,917 cases were seen at Foot Care Clinics of hospitals comprising 40,216 cases attended by nurses and 2,701 by doctors.
- 6.12.4 Cases attended by nurses have gone up by 4.3% including 7.3% increase at Victoria Hospital.
- 6.12.5 Overall attendance of 44,629 cases at Podiatry and Foot Care Services showed a rise of 5.3% in 2024 and an average annual increase of 0.1% every year from 2020 to 2024.

6.13 Retinal Screening

- 6.13.1 Retinal Screening was available at the Souillac Diabetes and Vascular Health Centre, Belvedere Mediclinic and all Regional Hospitals except Flacq Hospital. In 2024, cases of SSRNH were carried out at Triolet and Goodlands Mediclinics.
- 6.13.2 41,555 patients were screened with increases noted at all health institutions except at Victoria and Souillac Hospitals which has recorded a drop of 26.1% and 8.2% respectively as compared to 2023. SSRN Hospital registered an increase of 80.9% as cases were carried out at Triolet and Goodlands Mediclinics. A rise of 16.3% were noted at Dr A G Jeetoo Hospital while the others reporting less than 10% increase.
- 6.13.3 Attendance has increased by 16.1% in 2024 with an average annual increase of 7.3% for period 2020 - 2024.

6.14 Smoking Cessation Clinics

- 6.14.1 This service is provided by doctors and nursing personnel at nine public health institutions, services related to cessation of smoking include brief interventions, intensive counseling, pharmacotherapy and relapse prevention. The service was stopped at Beau Bassin (*Odette Leal*) Community Health Centre as from June 2024.
- 6.14.2 2,342 visits were recorded including 937 (40.1%) new cases. Dr A G Jeetoo Hospital has catered for the highest number of 582 visits followed by 502 cases at J Nehru Hospital, 336 at Victoria Hospital, 251 at SSRN Hospital, 221 cases at Flacq and less than 150 cases at the remaining four clinics.
- 6.14.3 New cases have increased by 27.1% in 2024 and an average annual increase of 8.7% for period 2020 - 2024.

6.14.4 Total attendance has decreased by 10.0% in 2024 after an increase in 2023 and showed a drop of 1.9% annually from 2020 - 2024.

6.15 Speech Therapy and Audiology

6.15.1 Speech Therapy and Audiology Services were available at Regional Hospitals except Victoria Hospital as it was provided at the ENT Hospital. Audiology Service at Flacq Hospital has been reckoning low attendances over the years as only Reflexes and Tympanometry service is available. The Audiology machine was out of order for about 6 months at both SSRN Hospital and ENT Hospital.

6.15.2 9,521 cases including 1,731 new patients were seen by the Speech Therapy Service in 2,740 sessions in 2024.

6.15.3 Commonly encountered complaints consisted of delayed speech with 932 new cases followed by 261 cases of Loss of Power of Expression and 258 cases of Early Intervention.

6.15.4 New cases have decreased by 3.7% in 2024.

6.15.5 Attendance has decreased by 10.8% this year involving all service points and has also gone down by 1.1% annually from 2020 to 2024.

6.15.6 At the Audiology Unit, 11,413 tests were carried out in the Department compared to 16,202 in 2023 due to the Audiology machine being out of order for about 6 months at both SSRN Hospital and ENT Hospital. This year, J Nehru Hospital has registered the highest attendance of 3,372 cases followed by 3,128 cases at Dr A G Jeetoo Hospital, 3,053 at ENT Hospital, 1,496 at SSRN Hospital and 364 at Flacq Hospital. 1,994 sessions were held with an average of 6 tests conducted per session.

6.15.7 3,660 tests of Pure Tone Average were carried out followed by 2,011 cases of Tympanometry, 1,808 of Adult Rehabilitation, 1,794 of Reflexes, 865 of Masking and less than 700 for the remaining ones.

6.15.8 Decrease in attendance has been encountered at all health institutions except at SSRN Hospital.

6.15.9 Attendance has registered a significant decrease of 29.6% in 2024 but indicated an average annual increase of 0.8% for period 2020 to 2024.

Cases Awaiting Surgery, Procedure or Examination

Surgeries and procedures are carried out at Regional Hospitals, S Bharati Eye Hospital, ENT Hospital, Souillac Hospital and Cardiac Centre. Cases are either entered on Waiting List or a firm date is given through the Booked List system.

Additionally, there are three separate surgery/procedure Lists of Unfit Patients, Multi-stage Surgeries and Patients Requesting Postponement which are not accounted hereunder as their waiting times are beyond the control of their departments/specialties.

7.1 Overall

- 7.1.1 8,804 cases were either on waiting or booked lists comprising 3,474 cases for surgery, 2,285 for procedures and 3,045 for specialised radiological examinations. 4,148 cases on the waiting list comprising 2,272 for surgery and 1,876 for procedures. And regarding booked list, there were 1,202 for surgery, 409 for procedures and 3,045 for examinations.
- 7.1.2 Cases awaiting surgery/procedure/examinations have gone down by 9.1% in 2024. Cases awaiting surgery has gone down by 26.6%, procedures have gone up by 21.4% while examinations have decreased by 0.6%.
- 7.1.3 Considering accumulated cases in 2020 – 2021 due to the pandemic, this is the third consecutive year where a decline in waiting and booked lists has taken place.
- 7.1.4 Waiting lists for surgery reckoned 2,101 cases in the Department of Ophthalmology depicting a drop of 38.1% compared to the 3,393 cases of the previous year. The other specialties had less than 600 cases each with the highest of 589 cases in General Surgery. As for procedures, 1,248 patients were waiting for angiography/angioplasty, 891 for endoscopy and 146 for lithotripsy.
- 7.1.5 2,857 were on booked list for radiological examinations out of a total of 4,656 cases on this list, also consisting 1,202 cases for surgery and 409 for procedures.
- 7.1.6 2,143 cases were waiting for echography/ultrasound, 372 for CT-Scan, 267 for MRI, 188 for EEG which is carried out at Brown Sequard Mental Health Care Centre and 75 for mammography.
- 7.1.7 Waiting time has decreased almost everywhere in 2024 except for Obstetrics & Gynaecology and Endoscopy. Patients have been waiting for 6.3 weeks for surgery compared to 16.4 weeks in 2023, whilst Obstetrics & Gynaecology had a waiting time of 3.8 compared to 5.4 in 2023 and in the department of Endoscopy patients were waiting for 5.7 weeks against 5.5 in 2023. As for Procedures, patients have been waiting for 8.6 weeks against 9.5 weeks in the previous year while waiting time for Examinations was 2.3 weeks in 2024 compared to 3.2 weeks in 2023.

- 7.1.8 Highest waiting times as at 31 December 2024 were as follows: 83.0 weeks for Renal Transplant at Victoria Hospital, 18.3 weeks for lithotripsy at Dr A G Jeetoo Hospital, 17.8 weeks for Angiography at Victoria Hospital among others.

Table 12: Evolution of Waiting and Booked Lists of Surgeries and Procedures - 2024

Specialty	Balance (as at 01 January 2024)	New patients	Cases Performed	Removed Cases	Balance (as at 31 December 2024)		
					Waiting List	Booked List	Total
Angiography/Angioplasty	1,128	3,992	3,327	535	1,248	0	1,248

%	92.3	5.4	2.3	0	100	

7.2 Others

- 7.2.1 As at 31 December 2024, 277 cases were awaiting foreign teams/specialists consisting of 89 cases in Cardiac Surgery, 17 in ENT, 104 in Ophthalmology, 21 in Paediatric Surgery, 18 in Orthopaedics, 8 in Paediatric Plastic Surgery and 20 in Plastic Surgery.
- 7.2.2 811 patients were unfit for surgery in the Department of Ophthalmology, 93 in Cardiac Surgery and 102 for angiography.
- 7.2.3 Surgery has been delayed in 45 cases on request of patients.

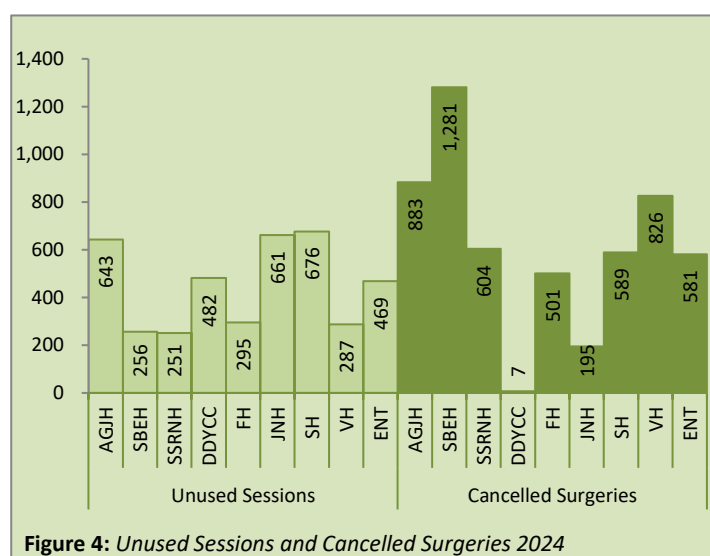

Operating Theatres and Surgeries Carried Out

8.1 Usage of Operating Theatres

8.1.1 45 operating theatres were available as in 2024 comprising 39 theatres for planned surgeries/procedures and 6 dedicated for emergencies.

8.1.2 16,438 planned operating sessions were available but 4,020 sessions (24.5%) did not have any activity.

8.1.3 Souillac Hospital has accounted for the highest number of 676 unused sessions this year, again followed by 661 such sessions at J Nehru Hospital. Dr A G Jeetoo Hospital has not used 643 sessions, 482 at Cardiac Centre, 469 at ENT Hospital, 295 at Flacq Hospital, 287 and 256 at Victoria Hospital and S Bharati Eye Hospital respectively while SSRN Hospital had the least of 251 unused sessions.

8.1.4 Patients were not available in 1,326 sessions (representing 33.0% of all cancelled sessions) while they were absent in another 268 sessions. 247 sessions had to be cancelled as patients were unfit and 490 sessions due to breakdown of equipment.

8.1.5 5,467 planned surgeries were cancelled which included 3,057 patients who did not turn up and 1,272 unfit ones. 140 surgeries had to be rescheduled while 181 were cancelled due to lack of time.

8.1.6 Cancelled cases represented 16.1% of all scheduled surgeries and have gone up compared to 2023.

8.1.7 12,418 planned sessions were held during the day where 28,535 surgeries were performed.

8.1.8 Planned sessions for surgery and planned surgeries have undergone slight decreases of 2.4% and 3.6% respectively in 2024. However, for the five-year period of 2020 – 2024, planned sessions still indicate 0.7% drop annually and 2.9% for cases performed. Meanwhile, emergency surgeries have reckoned a slight increase of 0.8% this year and 4.5% annually between 2020 and 2024.

8.2 Surgeries Performed

8.2.1 51,323 surgeries were performed in 26,441 sessions in 2024. They comprised 50,961 cases carried out by some 134 in-house surgeons during 26,266 sessions and 362 cases by foreign teams in 188 sessions.

8.2.2 28,535 planned surgeries were performed representing 55.6% of total surgeries performed against 22,788 emergencies. This year, planned surgeries have decreased by 3.8% while emergencies have increased by 1.0%. Planned surgeries have increased at nearly all hospitals except SSRN Hospital, Sir Aneerood Jugnauth Hospital, Cardiac Centre and Souillac Hospital.

8.2.3 Of the 22,788 emergency cases performed, 13,957 (61.2%) cases were conducted during normal working hours, 5,354 cases (23.5%) after normal working hours and the remaining 3,477 cases (15.3%) on weekends and public holidays.

8.2.4 Dr A G Jeetoo Hospital, J Nehru Hospital, Victoria Hospital and ENT Hospital have again conducted lesser planned surgeries than emergencies in 2024 also.

8.3 Surgeries performed by Hospital

8.3.1 Victoria Hospital has again conducted the highest of 8,745 surgeries followed by 8,562 cases by S Bharati Eye Hospital, 7,719 at Dr A G Jeetoo Hospital, 5,679 at SSRN Hospital, 4,952 at J Nehru Hospital, 4,649 at Flacq Hospital, 2,398 at Souillac Hospital and 1,001 cases at Cardiac Centre. ENT Hospital accounted for 7,618 cases including 4,196 minor local anaesthesia cases.

8.3.2 Surgeries have decreased by 1.7% with an average increase of 0.4% on average every year between 2020 and 2024.

8.4 Surgeries Performed by Specialty

8.4.1 Maintaining the trend of previous years, General Surgery has carried out the highest number of 12,333 surgeries and obviously followed by 10,960 cases in Ophthalmology, 8,022 by Obstetrics and Gynaecology and 7,767 by Orthopaedics. 1068 for Neurosurgery, Cardiac Surgery reckoned 994 cases, 437 for Paediatric Surgery, 312 at Vascular Surgery and 110 for Paediatric Plastic Surgery among others.

8.4.2 7 cases of Renal Transplants were carried out in 2024 against 11 surgeries that were performed in 2023.

8.5 Selected Surgeries

8.5.1 The Cardiac Centre has performed 915 open heart surgeries, of which, 16 cases were performed by visiting surgeons.

8.5.2 The Department of Neurosurgery has registered an increase for the sixth continuous year, being 13.1% this year and 12.1% annually for the last five years.

Table 14: Surgeries Performed 2024

Specialty	Sessions	Surgeries	Average per session
Cardiac Surgery	994	994	1
Dentistry	42	46	1.1
ENT	2,232	7,091	3.2
General Surgery	8,070	12,333	1.5
Neurosurgery	841	1068	1.3
Obstetrics and Gynaecology	5,470	8,022	1.5
Ophthalmology	1,915	10,960	5.7
Oral Surgery	162	204	1.3
Orthopaedics	4,885	7,767	1.6
Paediatric Surgery	280	437	1.6
Paediatric Plastic Surgery	96	110	1.1
Plastic Surgery	509	1,234	2.4
Renal Transplant	7	7	1
Vascular Surgery	248	312	1.3
Other Specialties	690	738	Does not apply
TOTAL	26,441	51,323	

8.5.3 In the Department of Ophthalmology, 6,606 cataract, 590 vitrectomy and 30 cases of keratoplasty were performed.

8.5.4 General surgeons at Regional Hospitals have performed 601 Arteriovenous Fistula and 841 lithotripsy cases, indicating a decrease of 28.1% for the latter.

8.5.5 Of the 7,091 cases performed in the specialty of ENT, only 1,007 cases required general anaesthesia.

8.6 Anaesthesia

8.6.1 47 anaesthetists were still in post in 2024.

8.6.2 26,693 (52.0%) surgeries were performed under Local Anaesthesia, 13,746 (26.8%) under General Anaesthesia, 9,204 (17.9%) under Spinal Anaesthesia and 1,680 (3.3%) under other types of anaesthesia.

8.6.3 General Anaesthesia cases have decreased from 14,395 in 2023 to 13,746 cases, they have continued to decrease percentage-wise, from 27.6% to 26.8%.

8.6.4 General Anaesthesia was required in 3,959 surgeries at Victoria Hospital followed by 2,518 cases at J Nehru Hospital, 2,020 at Dr A G Jeetoo Hospital, 1,676 cases at SSRN Hospital and 1,221 cases at Flacq Hospital. Cases have decreased at almost all Hospitals except for S Bharati Eye Hospital and ENT Hospital. The order of resorting to this type of anaesthesia among hospitals has remained the same as above.

8.6.5 8,453 cases were carried out under Local Anaesthesia at S Bharati Eye Hospital followed by 6,292 at ENT Hospital, 2,749 at Dr A G Jeetoo Hospital, 2,562 at Victoria Hospital, 2,396 at Souillac Hospital while the others have catered less than 1,500 cases each. The Cardiac Centre has resorted to Local Anaesthesia in 86 cases only.

- 8.6.6 Spinal anaesthesia was required in 9,204 cases consisting of 2,645 cases at SSRN Hospital, 2,633 cases at Dr A G Jeetoo Hospital, 1,718 cases at Flacq Hospital, 1,202 at Victoria Hospital and 1006 at J Nehru Hospital.
- 8.6.7 The Department of General Surgery resorted to General Anaesthesia in 4,696 surgeries followed by 3,097 cases in Obstetrics and Gynaecology and 2,258 in Orthopaedics while the remaining specialties reckoned less than 1,100 cases individually.
- 8.6.8 The Department of Ophthalmology resorted to local anaesthesia in 10,849 cases followed by 6,078 cases in ENT, 4,429 cases in General Surgery, 2,744 cases in Orthopaedics and 777 in Plastic Surgery while the remaining specialties have reckoned less than 700 cases each.
- 8.6.9 SSRN and Flacq Hospitals have resorted to Spinal Anaesthesia more than General or Local Anaesthesia. S Bharati Eye Hospital has resorted to General Anaesthesia in 109 cases and the remaining 8,453 cases were conducted under Local Anaesthesia.
- 8.6.10 Anaesthetists have catered to 98.3% of total surgeries performed.
- 8.6.11 The Departments of Cardiac Surgery at Cardiac Centre, ENT, Ophthalmology Oral Surgery and Renal Transplant have exclusively used local and/or general anaesthesia while the remaining ones have also used other types of anaesthesia.

Foreign Teams

- 9.1.1 19 foreign teams have carried out 22 visits in the country in 2024 and have covered almost all of the main specialties where their expertise is often required.
- 9.1.2 The visits took place all over the year and culminated in 220 days of stay.
- 9.1.3 39 outpatient clinic sessions were held and 913 cases were seen.
- 9.1.4 362 surgeries were performed by visiting specialists in 188 operating sessions.
 - a. In Cardiac Surgery, 1 visit was effected, 27 patients were seen in 4 outpatient clinics and 16 operating sessions were planned and an equal number of surgeries were performed.
 - b. In ENT, 1 visit was effected, 2 outpatient clinics were carried out, 6 operating sessions were held where 17 cases were performed.
 - c. In General Surgery, 21 operating sessions were held in 1 visit and 32 cases were operated.
 - d. In Nephrology, 9 operating sessions were held in 2 visits and 9 surgeries were carried out.
 - e. In Ophthalmology, 25 outpatient clinic sessions were carried out during 8 visits where 662 patients were seen, 79 operation sessions were scheduled and 230 surgeries were carried out.
 - f. In Orthopaedics, 6 outpatient clinic sessions were carried out during 4 visits where 89 patients were seen, 26 operating sessions were planned and 27 cases operated.
 - g. In Plastic Surgery, 2 visits were conducted 114 patients were seen in 2 outpatient sessions while 22 cases were performed in an equal number of sessions.
 - h. In Renal Transplant, 7 cases were performed in 7 sessions involving both donors and recipients.
 - i. In Thoracic Surgery, 1 visit was effected, where 2 cases were performed in an equal number of sessions.

Inpatient Service

Inpatient activity returned back to normal and beds were reinstated except that three wards namely at Victoria and J Nehru Hospitals were maintained in place.

10.1 Bed availability

10.1.1 Public hospitals operated with an average of 3,585 beds in 175 wards during the year while 3,714 beds were available on 31 December 2024.

10.1.2 Available beds on 31 December 2024 included 3,238 adult general beds, 117 children's beds and 129 cots, 120 for intensive care including 28 for neonates, 43 for labour wards, 23 incubators and 14 beds for detainees.

Table 15: Inpatient activity 2024

Hospital	Ward	Average Daily Available Beds	Admissions	Percentage Occupancy
AGJH	29	599	35,380	78.6
BSMHCC	24	561	2,955	67.1
SBEH	3	64	7,349	74.7
SSRNH	19	468	28,786	71.3
DDYCC	3	62	4,364	69.4
PDH	4	64	451	38.7
SAJH	25	388	24,031	64.7
JNH	17	376	24,319	75.8
MH	3	43	1,993	43.8
SH	2	84	4,960	37.6
VH	40	694	32,694	69.9
ENT	4	96	3,192	63.1
NCC	2	86	2,512	57.8
TOTAL	175	3,585	172,986	69.2

10.2 Admissions

10.2.1 172,986 admissions were registered in 2024 depicting 2.0% decrease and approaching the normal limit. Dr A G Jeetoo

Hospital reckoned the highest of 35,380 admissions closely followed by Victoria Hospital with 32,694 admissions and the other regional hospitals recording between 24,000 to 29,000 admissions. Regarding other hospitals, S Bharati Eye Hospital had the highest number of admissions with 7,349 cases followed by 4,960 at Souillac Hospital, 4,364 at Cardiac Centre while the remaining ones catered for between 400 to 4,000 admissions each.

10.2.2 This was the second time that the Cardiac Centre had admitted more than 4,000 cases in a year.

10.2.3 The Department of General Medicine reckoned 39,362 admissions followed by 23,706 at General Surgery, 17,632 at Obstetrics and Gynaecology, 14,586 at Cardiology, 10,770 at Orthopaedics, 10,274 at Paediatrics and 7,656 at Ophthalmology while the remaining specialties have catered for less than 6,000 admissions.

10.2.4 122 admissions were recorded at isolation wards of regional hospitals.

10.3 Percentage Bed Occupancy

- 10.3.1 Bed occupancy has decreased to 69.2% this year with Dr A G Jeetoo Hospital reckoning for the highest of 78.6% occupancy followed by J Nehru Hospital with 75.8% while Souillac Hospital recorded the least of 37.6% occupancy.
- 10.3.2 At J Nehru Hospital the Departments of Cardiology has required 191.2% bed occupancy and the General Surgery services has required 149.7%, which were highest occupancy rates among specialties. Other regular specialties have filled more than 50% of their beds except for the Department of Paediatrics which has been registering less than 60% of bed occupancy since years.

10.4 Length of Stay

- 10.4.1 Length of Stay which was steadily down and had reached 5.4 days in 2023, dropped to 5.3 days this year.
- 10.4.2 Brown Sequard Mental Health Care Centre admitted long-stay patients for 283.4 days on average and 16.9 days for the other ones followed by 18.4 days at Poudre D'Or Hospital, 6.2 days at National Cancer Centre, 5.5 days at Victoria Hospital, 4.9 days at Dr A G Jeetoo Hospital and not more than 4.5 days at the other ones.
- 10.4.3 Except for the obvious intensive care wards which reckoned longer days of stay, only the Psychiatric Ward at Mahebourg Hospital and Ward C12 of Victoria Hospital had cases admitted for 27.6 and 11.5 days respectively.
- 10.4.4 13,455 patients (8.6%) have stayed for 1 day only followed by 94,646 patients (60.8%) who have stayed between 2 to 5 days, another 26,764 patients (17.2%) have stayed for 6 to 10 days, 11,854 patients (7.6%) have stayed up to one month and 1,683 patients (1.1%) have stayed for more than one month. Out of 260 patients (0.2%) who have stayed for more than three months, 184 were admitted at Brown Sequard Mental Health Care Centre of which 307 stayed for the whole year.
- 10.4.5 Beds remained vacant for an average of 2.3 days in between discharges to admissions with the highest interval of 29.2 days at Poudre D'Or Hospital.

10.5 Fatality Ratio

- 10.5.1 6,093 inpatient deaths occurred at public hospitals indicating 3.6% increase compared to 2023. Fatality Ratio has also increased from 3.4% in 2023 to 3.6% this year.
- 10.5.2 The National Cancer Centre recorded the highest Fatality Ratio of 7.5% followed by Victoria Hospital and Poudre D'Or with 4.9%, and 4.8% respectively while the remaining Regional Hospitals reckoned between 2.9 – 4.5% of deaths.

10.5.3 Causes of death are available at paragraph 15 hereunder.

10.6 Morbidity

10.6.1 24,865 admissions were recorded among patients of 70+ years of age followed by 23,377 in the 60 – 69 age group and 18,409 in the 50 – 59 age group. 58,843 admissions were among males and 64,436 among females.

10.6.2 Admissions of females between the ages of 12 to 39 were higher than males. The latter exceeded females in the 40 to 69 years age group and then vice-versa after 70 years of age.

10.6.3 Diseases of the Circulatory System was the first cause in 19,923 admissions followed by 13,643 for respiratory diseases, 12,834 for injuries, 11,392 for genitourinary system, 11,370 for obstetrics problems, 10,459 for digestive problems and 6,760 cases for mental disorders. There were also 14,088 admissions with ill-defined conditions.

Deliveries and Births

11.1 Deliveries

Deliveries are mainly carried out at Regional Hospitals while the two District Hospitals undertake less than 10 normal deliveries in a year and Dr Yves Cantin Community Hospital carries out deliveries once in a while. As the ENT Isolation Centre was not functional in 2024.

- 11.1.1 7,934 deliveries were carried out in public hospitals in 2024 consisting of 3,258 (41.0%) normal ones, 4,590 (57.9%) caesarean sections, 74 (0.9%) forceps and 12 (0.2%) breech ones.
- 11.1.2 Deliveries consisted of 7,831 (98.7%) singles, 99 twins, 2 triplet ones and 2 quadruplets.
- 11.1.3 7,990 live births and 53 stillbirths occurred at hospitals in 2024. Dr A G Jeetoo Hospital had the highest number of stillbirths with 18 cases followed by 11 cases at both Victoria and J Nehru hospitals, 8 at Flacq Hospital and 5 at SSRN Hospital.
- 11.1.4 4 maternal deaths took place including 1 indirect cause of death, out of which 2 were referred to Police Medical Officer. One maternal death took place at the Accident and Emergency Department of Dr A G Jeetoo Hospital.
- 11.1.5 14 of the mothers were less than 15 years old, 872 were between 15 to 19 years, 4,099 were between 20 to 29 years, 2,694 were between 30 to 39 years, 247 were between 40 to 44 years and 8 were above 45 years.
- 11.1.6 Specialists have conducted 59.7% of deliveries followed by 38.2% by midwives and 2.1% by MHOs.
- 11.1.7 Deliveries have increased by 4.7% in 2024 but have gone down by 1.1% on average every year for period 2020 to 2024. Caesarean sections accounted for 57.9% of total deliveries, the highest ever achieved. Victoria Hospital has reckoned 64.6% of caesarean sections followed by 63.5% at SSRN Hospital, 58.2% at J Nehru Hospital and 56.9% at Flacq Hospital and 49.1% at Dr A G Jeetoo Hospital.
- 11.1.8 Hospitals have catered to another 80 additional deliveries which occurred outside of its premises consisting of 74 live births and 6 stillbirths. All of them were normal deliveries.

11.2 Births

- 11.2.1 8,043 births took place in public hospitals in 2024 consisting of 7,990 (99.0%) live births, 26 fresh and 27 macerated stillbirths.

11.2.2 Neonatal deaths have increased from 99 in 2023 to 112 this year accounting for 0.6% of total live births in 2022, 2023 and 2024. Perinatal deaths, 125 in number, have decreased by 5.3% in 2024 and therefore accounted for 1.6% of all live births in 2024. Stillbirths have gone down from 78 cases in 2023 to 53 this year showing a 0.3% drop in 2024 and accounted for 0.7% of all live births as in 2023.

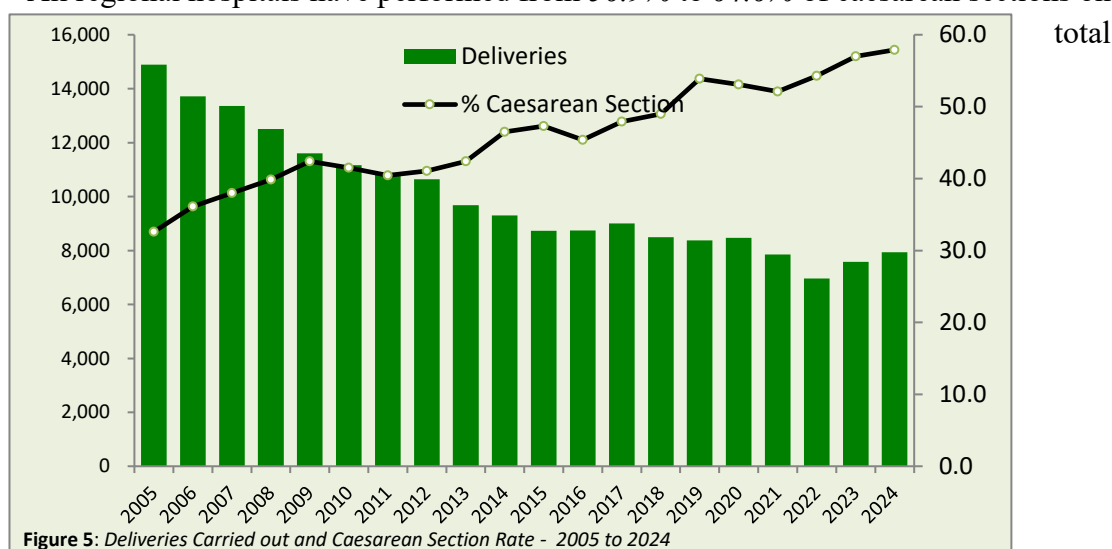

11.2.3 1,870 cases of low birth weight and 821 cases of prematurity among newborns were encountered. Low birth weight which was at 23.8% of total live births in 2023 has gone down to 23.4% in 2024 and prematurity which was 9.4% in 2023 have risen to 10.3% in 2024.

11.3 Caesarean sections

11.3.1 4,590 caesarean sections were carried out representing 57.9% of all deliveries.

11.3.2 Some 34 Obstetricians have carried out an average of 135 caesarean sections but which ranged between 26 and 236 cases at individual level.

11.3.3 All regional hospitals have performed from 56.9% to 64.6% of caesarean sections on

deliveries, except for 49.1% at Dr A G Jeetoo Hospital.

11.4 Others

11.4.1 10 teenagers of less than 15 years have undergone caesarean sections followed by 410 who were aged 15 to 19 years.

11.4.2 The 255 women (3.2%) of more than 40 years have had a delivery, the eldest being 50 years old.

11.4.3 79 women suffered from pre-eclamptic toxemia indicating 30.7% decrease this year.

Procedures, Examinations and Other Tests

12.1 Pathological Tests

- 12.1.1 8,097,519 blood specimens were collected at the Laboratory Services and consequently 16,038,489 tests were carried out. Specimens have increased by 5.0% and tests by 6.3% in 2024.
- 12.1.2 Tests have increased at all public health institutions except at Flacq and J Nehru Hospital where it has decreased slightly.
- 12.1.3 Laboratory services were not provided at Plaine Verte Mediclinic and Y Cantin Community Hospital in 2024.
- 12.1.4 As usual, the Central Laboratory at Victoria Hospital has carried out the highest number of tests: 39.4% (6,325,129) of all tests were carried out followed by 17.9% A G Jeetoo Hospital. 15.0% at SSRN Hospital, 12.2% at Flacq Hospital and 9.0% at J Nehru Hospital among the Regional Hospitals. ENT Hospital and the National Cancer Hospital has covered 1.8% of all tests while the remaining facilities have performed less than 1.5% of tests each.
- 12.1.5 Tests carried out have increased significantly by 68.2% at the Department of Molecular Biology followed by 17.1% at the Virology Department, 7.5% at the Haematology Department, 5.7% at the Blood Transfusion Service, and 5.1% at the Biochemistry Department. On the other hand, there has been a decrease of 17.3% at the Cytology Department, 6.7% at the Parasitology Department and 2.9% at the Histology Department.
- 12.1.6 Ratio of specimens to tests has maintained the same trend as compared to previous years with a ratio of 1:0 at the Histology Department followed by 1:1 at Bacteriology Department, 1:1 at Blood Transfusion Service, 1:0 at Haematology, 1:4 at Molecular Biology, 1:1 at the Virology less than 1:0 in Parasitology Departments. Overall ratio has remained at 1:0 in 2024.
- 12.1.7 As in the previous years, the Biochemistry Section has been processing the highest number of tests every year accounting for 48.7% of all tests followed by 32.2% at the Haematology Section, 8.8% at the Blood Transfusion Service, 4.1% at the Bacteriology Section and less than 3% at each of the other sections.
- 12.1.8 Tests have increased by 6.3% in 2024 and by 1.2% on average every year from 2020 to 2024.

12.2 Radiological examinations

- 12.2.1 838,946 radiological examinations were carried out indicating 4.0% increase in 2024.

- 12.2.2 Dr A G Jeetoo Hospital accounted for the highest of 26.5% (221,911) of all x-rays performed and the least of 11.3% (94,402) at J Nehru Hospital among regional hospitals. The other facilities have performed between around 50 and 15,000 cases in the year.
- 12.2.3 Among the lowest activity level, Coromandel Mediclinic has carried out 47 examinations, 102 at Belvedere Mediclinic, 496 at Poudre D'Or Hospital and 768 at Plaine Verte Mediclinic.
- 12.2.4 Activity has increased at all health facilities except for drop of 53.7% at Yves Cantin Community Hospital, 46.6% at Belvedere Mediclinic, 16.1% at Plaine Verte Mediclinic, 12.6% at Chest Clinic and 11.6% at SSRN Hospital.
- 12.2.5 The Accident and Emergency Department accounted for 75.4% of all x-rays done, representing 82.2% of total examinations at Dr A G Jeetoo Hospital followed by 77.5% at Victoria Hospital, 76.6% at Flacq Hospital, 72.6% at SSRN Hospital and 67.0% at J Nehru Hospital.
- 12.2.6 The most common examinations carried out remained the same: 303,114 x-rays done on extremities, 190,244 on the chest, 91,680 on the spine, 74,209 on the abdomen and 72,323 on the skull.
- 12.2.7 6,545 cases of angiography were carried out and 51,117 cases of echography, 36,464 CT-Scans and 5,862 MRIs. MRIs has increased by 24.9% followed by Angiographies 0.9% and echography 0.4% while CT-Scans has decreased by 2.9%.

12.3 Endoscopy

- 12.3.1 Available at Regional Hospitals, this Service has conducted 13,265 examinations. Dr A G Jeetoo Hospital has catered for 6,090(45.9%) cases followed by 2,577 cases at SSRN Hospital, 1,882 cases at Victoria Hospital, 1,364 at J Nehru Hospital and 1,352 at Flacq Hospital.
- 12.3.2 Examinations consisted of 8,517 cases of gastroscopy cases followed by 4,170 colonoscopy cases, 368 Endoscopic Retrograde Cholangiopancreatography (ERCP) cases and 10 cases of Sigmoidoscopy among others.
- 12.3.3 Activity and examination type have both gone up at almost all institutions with 5.5% overall increase in activity except for Dr A G Jeetoo Hospital and Flacq Hospital with a decrease of 7.1% and 1.3% respectively. For the last five years, activity has increased by 12.1% on average every year.

12.4 Chemotherapy and Radiation

- 12.4.1 Chemotherapy service was available at all Regional Hospitals except Flacq Hospital while Radiation Therapy was available at Victoria Hospital only.
- 12.4.2 15855 sessions of Chemotherapy were carried out consisting of 13,122 sessions at Victoria Hospital, 1,254 at SSRN Hospital, 901 at J Nehru Hospital and 578 at Dr A G Jeetoo Hospital.
- 12.4.3 Chemotherapy sessions have decreased by 5.4% in 2024 with decreases registered at all hospitals. Dr A G Jeetoo Hospital recorded 578 cases in 2024 compared to 719 in 2023 and SSRN Hospital registered a decrease of 25.7% followed by 23.5% at J Nehru Hospital and 0.4% at Victoria Hospital.
- 12.4.4 Sessions have increased by 4.4% on average every year from 2020 to 2024.
- 12.4.5 At the Radiation Therapy services, 5,095 attendances were registered on the Equinox machine and 9,165 on the Elite 80 machine. A total of 1,324 attendances recorded on the Simulator machine. The Linear Accelerator apparatus is out of order since November 2023.
- 12.4.6 Activity has gone down by 22.8% in 2024.

13 Other Procedures, Examinations and Tests**13.1 Cardiac procedures**

- 13.1.1 Cardiac procedures were carried out at Dr A G Jeetoo Hospital, Victoria Hospital and the Cardiac Centre.
- 13.1.2 6,545 cases of angiography were carried out this year indicating an increase of 0.9%. Cardiac Centre has conducted 3,893 cases followed by 1,952 cases at Victoria Hospital and 700 cases at Dr A G Jeetoo Hospital.
- 13.1.3 This year, angiography cases have gone up by 29.7% at the Cardiac Centre but encountered a decrease of 40.5% and 15.4% at Dr A G Jeetoo Hospital and Victoria Hospital respectively. For period 2020 to 2024, angiographies have increased by 6.4% on average every year.
- 13.1.4 Additionally, 81 other cardiac procedures were carried out at the Cardiac Centre.

- 13.2 CT-Renal Angiography** was carried out by radiologists on patients suffering from renal problems at J Nehru Hospital only. 20 cases were performed depicting normal activity this year.

13.3 Electrocardiogram (ECG)

- 13.3.1 268,398 electrocardiograms were carried out at public hospitals excluding cases performed in the Departments of Cardiology indicating a decrease of 2.6% in 2024 affecting most hospitals. However, increases of 53.1%, 27.2% and 24.5% are noted at Y Cantin Community Hospital, Souillac Hospital and Long Mountain Hospital respectively.

13.4 Electroconvulsive Therapy (ECT) and Electroencephalogram (EEG)

- 13.4.1 ECT and EEG Services were provided at Brown Sequard Mental Health Care Centre only.
- 13.4.2 ECT was conducted on 217 patients indicating 24.0% increase in 2024 while a decrease of 0.1% was registered annually for period 2020 to 2024.
- 13.4.3 The 1,721 EEGs carried out indicated an increase of 4.4% compared to 2023.

13.5 Laser treatment

- 13.5.1 Laser treatment for eye problems was available at Dr A G Jeetoo Hospital, SSRN Hospital, S Bharati Eye Hospital, Souillac Hospital, Belvedere Mediclinic and Floreal Mediclinic, where laser treatment started from 2024. All health facilities provided Argon laser treatment. Yag laser treatment was however routinely available at S Bharati Eye Hospital but also included Souillac Hospital as from April 2022.
- 13.5.2 6,010 sessions were carried out comprising 5,080 sessions of Argon and 930 Yag sessions. S Bharati Eye Hospital has alone conducted 4,359 cases of Argon and 655 cases of Yag laser treatment.
- 13.5.3 Activity was minimal at the remaining hospitals: 594 cases at Souillac Hospital, 180 at SSRN Hospital, 129 at Dr A G Jeetoo Hospital, 91 at Floreal Mediclinic and 2 at Belvedere Mediclinic.
- 13.5.4 Activity has increased by 16.8% in 2024.

13.6 Lithotripsy

- 13.6.1 841 Lithotripsy cases were carried out by general surgeons consisting of 342 cases at SSRN Hospital, 290 at J Nehru Hospital and 209 cases at Victoria Hospital. The service has decreased by 28.1% in 2024 and but increased by 3.4% annually for the last five years.
- 13.6.2 Waiting list has increased by 39.0% reaching 146 in 2024. However, waiting time has accounted for a drop from 10.2 weeks in 2023 to 8.2 weeks in 2024.

13.7 Medical Fitness Examinations

- 13.7.1 Out of 230 requests received for medical fitness of Seafarers, only 41 (17.8%) candidates attended hospitals for examination.
- 13.7.2 5,108 examinations were carried out for officers who joined the public service in addition to 251 other medical fitness examinations.
- 13.7.3 A total of 5,400 medical examinations were carried out depicting 11.4% increase in activity.

13.8 Nuclear Medicine

- 13.8.1 The Service is available at J Nehru Hospital only. 1,729 visits were registered indicating 0.5% increase in 2024 and 2.7% on average every year between 2020 to 2024.
- 13.8.2 The most common examinations have remained the same over the years, including 513 Bone Scans, 318 Thyroid Scans, 151 Heart Scans, 110 Renal Scans and less than 70 cases for each of the other tests.

13.9 Spirometry (pulmonary function test) is performed exclusively at the Chest Clinic. 214 tests were performed depicting 14.1% drop in 2024 but indicated a 0.3% increase annually every year from 2020 to 2024.

13.10 Stress Tests were available at Regional Hospitals and the Cardiac Centre. Cases have gone down by 14.7% in 2024.

13.10.1 Tests comprised 1,178 cases at Victoria Hospital followed by 1069 at J Nehru Hospital, 930 at Dr A G Jeetoo Hospital, 561 at SSRN Hospital and 403 at Flacq Hospital. A significant increase of 12.4% has been registered at J Nehru Hospital while a drop of 31.1 % at Flacq Hospital and 28.3% were noted at Dr A G Jeetoo Hospital.

13.10.2 For period 2020 to 2024, stress tests indicated an average annual increase of 5.2%.

13.11 Tubal ligation

13.11.1 Gynaecologists at Regional Hospitals have carried out 657 tubal ligations with Victoria Hospital performing the highest of 242 cases and SSRN Hospital the least of 79 cases. 382 women, i.e., 58.1%, were in the 30 – 39 age group and 57 were between 40 – 44 years.

Surveillance of Some Conditions of Health

Increase was noted in all diseases under surveillance with the waiving of two years of social distancing.

14.1 Conjunctivitis

- 14.1.1 41,087 cases of conjunctivitis were reported at public health institutions including 21,557 (52.5%) cases at primary health care centres.
- 14.1.2 Cases were highest in May (6,376) and April (5,318) but indicated some 3,214 cases on average between July to December with lowest attendance of 2,025 cases in January.
- 14.1.3 Cases have increased by 29.7% across all health regions this year. An average of 112 cases was seen daily compared to 87 in 2023.

14.2 Gastroenteritis

- 14.2.1 160,073 cases of gastroenteritis were recorded at public health institutions including 99,942(62.4%) cases at primary health centres. Cases have increased by 30.8% encountering some 437 cases daily.
- 14.2.2 Cases were the highest in May (15,681) and April (15,597) while the remaining months had an average of 12,880 cases. Children under the age of 12 years represented 21.2% of total attendance.
- 14.2.3 2,836 patients were admitted representing 4.7% of total cases treated at hospitals. Children under 12 years of age represented 23.4% of total admissions.

14.3 Upper Respiratory Tract Infection (URTI)

- 14.3.1 582,756 cases of influenza-like-illnesses (ILIs) attended public health institutions with 373,531(64.1%) cases registered at primary health care centres. Cases have decreased by 9.6% in 2024.
- 14.3.2 Attendances were the highest in July (68,634) and September (64,483) while the lowest of 29,478 cases was recorded in January and 35,817 cases in December.
- 14.3.3 An average of 1,592 cases was registered per day compared to 1,767 cases in 2023.
- 14.3.4 2,501 admissions were encountered with 7 cases on average daily compared to 9 cases last year. These represented 1.2% of all cases treated at hospitals compared to 1.3% in 2023.

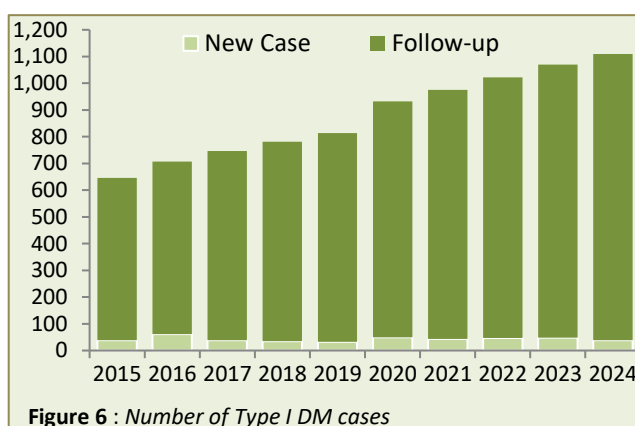

14.4 Type I Diabetes Mellitus

14.4.1 1,109 patients comprising 509 males (45.9%) and 600 females (54.1%) were following treatment for Type I diabetes mellitus at public hospitals.

14.4.2 There were 86 children under 15 years of age including 46 girls followed by 202 adolescents of less than 20 years and 907 adults were aged 20 years and above including 491 females.

14.4.3 417 patients (37.6%) were following treatment at Victoria Hospital in 2024 followed by 238(21.5%) at Dr A G Jeetoo Hospital, 190(17.2%) at SSRN Hospital, 144 (13.0%) at Flacq Hospital and 120(10.8%) at J Nehru Hospital. 78 patients were following treatment at more than one public health institution.

14.4.4 39 new cases were enumerated this year comprising 20 males and 19 females. They consisted of 10 children of less than 15 years, 8 adolescents of less than 20 years and 21 adults as from 20 years of age. 14 patients (35.9%) were diagnosed at SSRN Hospital followed by 12 patients (30.8%) at Victoria Hospital and 8 patients (20.5%) at Dr A G Jeetoo Hospital and between 1-4 cases at the other regional hospitals.

14.5 Gestational Diabetes Mellitus

14.5.1 1,634 women were suffering from diabetes mellitus during their pregnancy in 2024 showing a rise of 36.5% compared to the previous year.

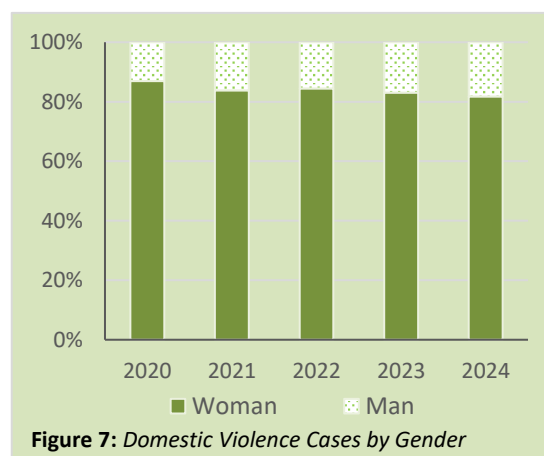

14.5.2 75 patients (4.6%) were in the 15 - 19 age group, 740 women (45.3%) were in the 20 - 29 age group, 730(44.7%) in the 30 - 39 age group and 89(5.4%) were 40 years and above.

14.5.3 489 new cases (29.9%) followed treatment at SSRN Hospital followed by 468 (28.6%) at Dr A G Jeetoo Hospital, 254 (15.5 %) at J Nehru Hospital, 221(13.5%) at Victoria Hospital and 202(12.4%) at Flacq Hospital.

14.5.4 Average annual change has remained the same during the last five years.

14.6 Domestic Violence

14.6.1 1,118 cases of domestic violence were registered at public hospitals in 2024 comprising 914 women (81.8%) and 204 men. 289 cases (25.8%) were registered at Dr A G Jeetoo Hospital followed by 276 (24.7%) at Victoria Hospital, 262 cases (23.4%) at SSRN Hospital, 125 (11.2%) at Flacq Hospital, 79(7.1%) at J Nehru, 57(5.1%) at Souillac Hospital and 30 (2.7%) at Mahebourg Hospital.

14.6.2 After having increased in 2023, cases have gone down this year by 4.3% with 3.0% increase in men and a decrease of 5.8% in women. However, even if cases have remained the same on average annually for period 2020 to 2024, it shows a 13.5% increase among men.

14.6.3 Cases have decreased at all the Regional Hospitals except a slight increase at Flacq and Victoria Hospitals.

14.7 Child Abuse

14.7.1 143 cases of abuse against children of less than 18 years were registered in 2024. This year, J Nehru Hospital has registered the highest of 47 cases followed by 45 cases at Victoria Hospital, 30 cases at SSRN Hospital with the others reckoning less than 10 cases each.

14.7.2 Total cases have gone up from 94 cases in 2023 to 143 cases this year which indicates an increase of 9.4% for period 2020 to 2024.

14.8 Scabies

14.8.1 2,260 cases were registered at all public health institutions indicating an increase of 28.9% this year.

14.8.2 Highest number of 642 cases (28.4%) was registered in Health Region of Victoria Hospital followed by 578 cases (25.6%) in the Health Region of Dr A G Jeetoo Hospital, 471 cases (20.8%) in the Health Region of J Nehru Hospital, 322 cases (14.2%) at the SSRN Hospital Health Region and 247 cases (10.9%) at the Health Region of Flacq Hospital.

14.8.3 Regarding hospitals, Victoria Hospital has once again registered the highest number of 299 cases in 2024 followed by 277 cases at Dr A G Jeetoo Hospital, 148 cases at J Nehru Hospital, 104 at Mahebourg Hospital, 98 cases at SSRN Hospital, 98 cases at

Flacq Hospital, 69 cases at Souillac Hospital, 34 cases at Dr Y Cantin Community Hospital and 12 cases at Long Mountain Hospital.

- 14.8.4 Concerning primary health care centres, the highest of 158 cases was registered at Stanley Mediclinic followed by 105 cases at Goodlands Mediclinic, 103 cases at Bambous AHC, 69 cases at Riviere du Rempart AHC and 63 cases at Floreal Mediclinic among others.

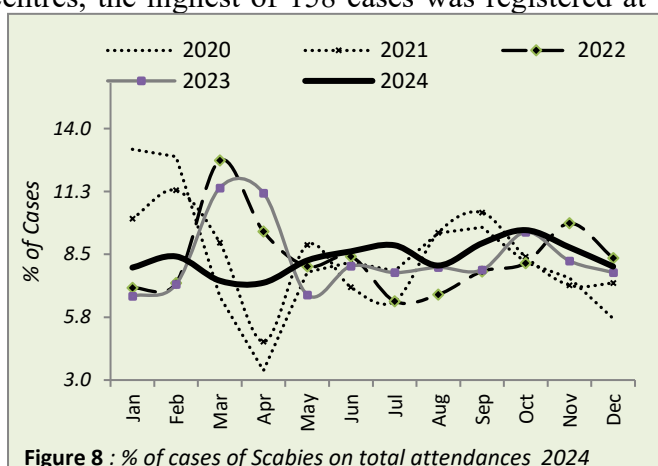

Figure 8 : % of cases of Scabies on total attendances 2024

- 14.8.5 8 Health Centres have registered less than 10 cases each including Ollier CHC which did not record any case.
- 14.8.6 Cases were the highest in October, September and July while drops were noted in February, March and August.
- 14.8.7 Cases have again gone up by 28.9% this year following increases in 2022 and 2023, which indicate an average annual increase of 4.2% between 2020 and 2024.

14.9 Foreigners attending for care and treatment

Foreigners were required to bear the cost of inpatient services at public hospitals except for citizens of Comoros Island.

- 14.9.1 1,648 foreigners attended public hospitals in 2024 including 133 Comoreans. They comprised 6 patients referred for treatment and 1,642 travelers and tourists.
- 14.9.2 Additionally, 154 patients were referred from Rodrigues and 1 from Agalega for further treatment. Another 4 Rodriguans and 4 Agalegan attended public health institutions while on visit in the country.
- 14.9.3 Of the 1,511 travellers, 829 were from Europe, 261 from Africa and 45 from India among others.
- 14.9.4 Dr Yves Cantin Community Hospital has registered the highest of 335 travelers followed by 266 at Victoria, 217 at J Nehru Hospital, 145 at Mahebourg Hospital, 139 at Flacq Hospital, 137 at Souillac Hospital, 136 at SSRN Hospital, 128 at Dr A G Jeetoo Hospital, 97 at S Bharati Eye Hospital and 37 at ENT Hospital.
- 14.9.5 Attendance has gone down by 3.1% this year.

14.10 New patients of Brown Sequard Mental Health Care Centre

- 14.10.1 1,559 new psychiatry-related patients were seen by specialists at Brown Sequard Mental Health Care Centre compared to 1,744 in 2023 indicating a decrease of 10.6%. Patients with Psychiatric conditions resulted in 1,541 cases.
- 14.10.2 Mental disorders due to use of psychoactive substances remained the most frequent condition encountered with 296 cases (19.0%) followed by 238 cases (15.3%) of mood affective disorders, 213 cases (13.7%) of neurotic stress related disorders and 172 cases (11.0%) of other psychiatric illness, 148 cases (9.5%) of schizophrenic and related disorders. Although the order of the diseases has remained the same, diseases of the nervous system has gone down by 18.7% in 2024.
- 14.10.3 New cases of mental retardation have decreased from 41 in 2023 to 6 in 2024 and new cases of disorder of psychological development have increased by 68.9% and lesser in some other disease groups. Cases of alcoholism have increased by 3.8%.
- 14.10.4 Use of psychoactive substances was found to be the highest in the 20 – 29 and 30 – 39 age groups (157 and 83 cases respectively) and also being the highest compared to the other disease groups.

14.11 Admissions in public hospitals due to consumption of illicit drugs

- 14.11.1 1,061 admissions related to consumption of drugs were recorded in public hospitals in 2024 indicating 2.8% increase compared to 2023.
- 14.11.2 Brown Sequard Mental Health Care Centre reckoned 46.3% of all admissions followed by 20.8% at SSRN Hospital, 14.8% at Dr A G Jeetoo Hospital, 6.9% at J Nehru Hospital, 5.8% at Victoria Hospital and 5.4% Flacq Hospital. Admissions have gone up at Brown Sequard Mental Health Care Centre and SSRN Hospital and decreased at Dr A G Jeetoo Hospital.
- 14.11.3 Admissions among males have gone up and therefore represented 91.2% of total admissions. This also implies admissions among females have decreased in 2024 by 11.4% this year.
- 14.11.4 10 patients were between 10 to 14 years of age, 69 were between 15 to 19 years, 434 between 20 to 29 years, 315 between 30 to 39 years, 161 between 40 to 49 and 72 being 50 years and over. Cases in the above 50 age group have down from 89 in 2023 to 72 in 2024.
- 14.11.5 617 patients were admitted for consumption of synthetic drugs followed by 280 for opiates, 113 for cannabis and 51 for other mixed and unspecified drugs. Consumption of opiates has decreased this year.

- 14.11.6 In addition, hospitals have reported 20 cases of consumption of medicinal products, an increase as compared to last year.

14.12 Amputations

- 14.12.1 661 amputations were carried out in public hospitals in 2024 excluding 44 traumatic ones. Non-traumatic

amputations comprised 432(65.4%) new cases and 229(34.6%) re-amputations. This year, first-time amputations have decreased by 4.8%, re-amputations by 15.2% and total amputations by 8.7%.

Table 16: Non-traumatic amputations

	2020	2021	2022	2023	2024
New amputees	510	399	458	454	432
Re-amputations	373	259	288	270	229
Total	883	658	746	724	661
% change of new amputees	9.2	-21.8	14.8	-0.9	-4.8
New amputees with diabetes mellitus	446	348	414	422	371

- 14.12.2 Of the 432 new amputees, 307 were male and 125 were female patients. Of the new patients, 85.9% (371) were suffering from diabetes comprising 259(69.8%) males and 112 (30.2%) females.
- 14.12.3 Males represented 73.2% of all amputations performed. However, proportions of females against males, with and without diabetes, have both decreased this year.
- 14.12.4 Out of 371 new patients suffering from diabetes, 255 males and 110 females underwent lower limb amputation while 4 males and 2 females had an upper limb amputation.
- 14.12.5 New cases included 48 male and 13 female patients who did not suffer from diabetes. Of these, 28 male and 11 female patients underwent a lower limb amputation.
- 14.12.6 Of the 225 re-amputations performed on diabetic patients, 64.9% underwent a second amputation, 19.6% for a third one and 15.6% had four or more episodes of surgery. Regarding the 4 non-diabetic cases, 4 have undergone a second amputation.
- 14.12.7 Below-knee amputation was carried out on 77 patients followed by above-knee amputation on 4 of them. 203 above-knee amputations were performed including 140 patients who were amputated for the first time. Were also included 2 males and 2 female patients who have undergone above-knee amputation of both feet.
- 14.12.8 Non-traumatic amputations have decreased by 8.7% in 2024 and by 3.7% on average every year from 2020 to 2024.

14.13 New Cases of Chest Clinic, Port Louis

- 14.13.1 540 new cases were encountered at the Chest Clinic comprising 99 cases of tuberculosis, 4 carcinoma cases, 17 diseases of the nervous system, 258 cases of respiratory diseases, 137 cases of ill-defined chest-related signs and symptoms and 25 other unrelated chest diseases.
- 14.13.2 92 pulmonary and 7 extra-pulmonary new cases of tuberculosis were recorded but no HIV and relapsed cases were encountered.
- 14.13.3 Out of 258 cases of respiratory diseases, there were 138 cases of bronchial asthma, 48 cases of bronchitis, 39 cases of chronic obstructive pulmonary disease and 21 cases of pneumonia and chest infection among others.
- 14.13.4 Additionally, 61 persons received chemoprophylaxis treatment.
- 14.13.5 New cases have remained the same as in 2023 but has gone down annually by 8.2% from 2020 to 2024 with tuberculosis cases going down by 1.0% and neoplasms same.

15 Deaths**15.1 Inpatient deaths**

- 15.1.1 6,093 inpatient deaths occurred in public hospitals in 2024 indicating 3.3% increase compared to the previous year. 1,601 deaths were registered at Victoria Hospital followed by 1,465 at Dr A G Jeetoo Hospital, 1,100 at SSRN Hospital, 914 at J Nehru Hospital, 703 at Flacq Hospital, 191 at National Cancer Centre and 57 at the Cardiac Centre and less than 30 at the remaining hospitals.

Table 17: Main Primary Cause of Deaths

CAUSE OF DEATH (according to ICD-10)	2020	2021	2022	2023	2024
Diseases of the Circulatory System	1,818	2,063	1,959	1,887	1,939
Infectious and Parasitic Diseases	1,298	1,420	1,683	1,962	2,029
Diseases of the Respiratory System	601	1,396	960	670	561
Neoplasms	549	467	460	457	472
Diseases of the Digestive System	325	287	299	247	263
Diseases of the Genitourinary System	281	355	292	219	289
Others	443	443	474	454	540
Total	5,315	6,431	6,127	5,896	6,093

- 15.1.2 2,723 inpatients of 70+ years passed away representing 44.7% of all inpatient deaths followed by 1,670 patients between 60 to 69 years and 855 between 50 to 59 years. The 143 deaths of children under 12 years of age represented 2.3% of all deaths and included 137 infant deaths (2.2%). Deaths among children have increased by 0.7% this year.
- 15.1.3 Primary cause of death continued to be among diseases of the Infectious and Parasitic group with 2,029 deaths (33.3%) followed by 1,939 from the Diseases of the

- Circulatory Systemic group, 561 from the Respiratory System and 472 neoplasms among others.
- 15.1.4 7 patients passed away with diabetes as main cause of death, 3 with hypertension and 269 (4.4%) with injury. Deaths resulting from road traffic accidents accounted for 43 cases.
- 15.1.5 218 deaths carried an ill-defined condition as primary cause of death and included 208 cases of cardiogenic shock.
- 15.1.6 357 deaths (5.9%) were referred to the Police Medical Officer for autopsy involving 266 males and 91 females.
- 15.2 Outpatient deaths** -please refer to paragraph 2.2 above.

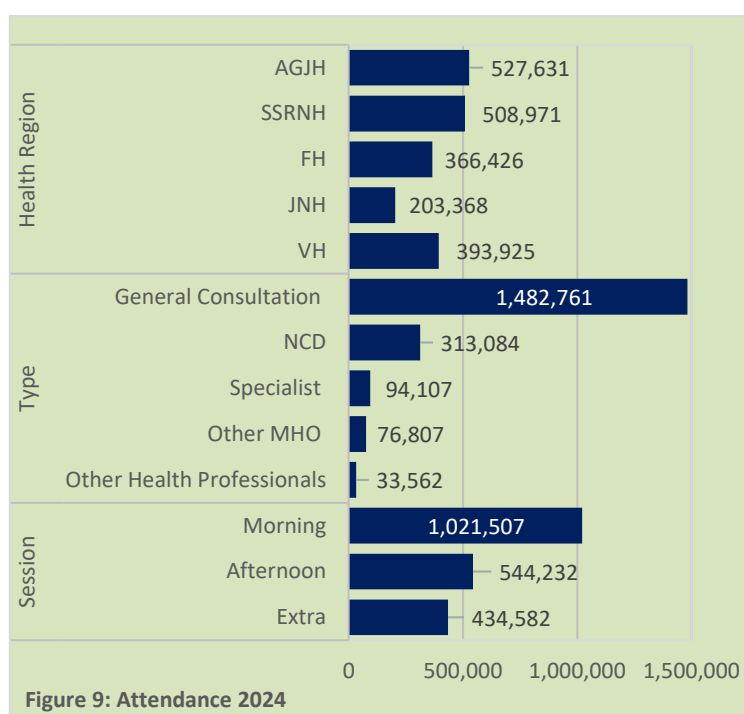

Primary Health Care Service

16.1 Introduction

16.1.1 Primary health care facilities have remained almost the same as in 2024, that is, 139 health centres comprising 12 Mediclinics, 17 AHCs and 111 CHCs. Bel Air AHC, Stanley CHC, Grand Bois CHC and Petite Riviere AHC were upgraded to Mediclinic on 26 April, 04 May, 18 July and 02 August 2024 respectively. New Grove CHC was upgraded to AHC on 04 October 2024. A new CHC was opened at Batimarais on 31 March 2024 and finally La Lucie Roy CHC was closed on 31 December 2024 due to its close proximity to Bel Air MC.

16.1.2 Mediclinics were functional daily from 8.00hrs to 21.00hrs except for L'Escalier Mediclinic which closed at 18.00hrs. AHCs performed extra sessions between 16.00hrs to 18.00hrs on weekdays and from 9.00hrs to 12.00hrs on Sundays and public holidays except Riviere du Rempart AHC which closes at 19.00hrs. 5 CHCs also carried out extra sessions on specific days.

16.1.3 Services at Health Centres comprised General Consultation, NCD clinics and other clinics such as Breast and Cervical screening, Cash Gift, Diet Clinics, Family Planning, Foot Care, Maternal and Child Health, NCD

Screening, Fertility Clinic, Smoking Cessation clinics, Occupational Health Medicine and 2 new services namely Exercise and Geriatric Clinics were introduced in 2024. Specialist clinics of Cardiology, Chest diseases, Dermatology, Diabetology, ENT, General Medicine, General Surgery, Obstetrics and Gynaecology, Ophthalmology, Orthopaedics, Paediatrics, Physical Medicine and Psychiatry were also carried out.

16.1.4 As part of the decentralization programme, routine cases of hospital specialist clinics were directed to district hospitals, Mediclinics and AHCs.

16.2 Attendance

16.2.1 Doctors have treated 2,000,321 cases in 2024 comprising 1,795,845 visits (89.8%) for general consultation, 76,807 visits (3.8%) at other MHO consultations and 94,107 visits (4.7%) at specialist clinics. Other professionals have additionally catered to

33,562 visits (1.7%). Included in General Consultation were 313,084 (15.7%) visits at NCD clinics.

- 16.2.2 Regarding general consultations, 929,690 (46.5%) cases attended in the morning, 431,573 (21.6%) in the afternoon and 434,582 (21.7%) visits in extra sessions.
- 16.2.3 Total attendance has increased by 3.6% in 2024 compared to the previous year and has increased by 0.3% on average annually for period 2020 to 2024.

16.3 Attendance by Health Region

- 16.3.1 Health Region I has encountered 527,631 (26.4%) visits followed by 508,971 (25.4%) visits at Health Region II, 393,925 (19.7%) visits at Health Region V, 366,426 (18.3%) visits at Health Region III and 203,368 (10.2%) visits at Health Region IV.
- 16.3.2 Regarding Mediclinics, highest attendance was recorded at Goodlands with 138,215 visits followed by 111,925 visits at Triolet, 79,714 visits at Stanley, 75,019 visits at Plaine Verte, 68,437 visits at Belvedere, 62,324 visits at Quartier Militaire, 59,378 visits at Floreal, 59,310 at Bel Air, 47,554 visits at Coromandel, 41,579 at Petite Riviere, 29,112 at L'escalier and 23,331 visits at Grand Bois.
- 16.3.3 Among AHCs and CHCs, Riviere Du Rempart AHC had the highest attendance of 80,895 visits followed by 46,040 visits at Ste Croix CHC, 36,836 visits at Bambous AHC, 34,350 visits at Chemin Grenier AHC, 29,064 visits at Castel AHC, 28,754 visits Beau Bassin AHC, 28,570 visits at Baie du Tombeau CHC, 27,729 visits at Curepipe AHC and 27,616 visits at St Pierre AHC while the remaining health centres had recorded less than 25,000 visits.
- 16.3.4 Lowest attendances were recorded at La Laura CHC, Chamarel CHC and Case Noyale CHC with 1,437, 1,144 and 873 visits respectively.

16.4 Average Daily Attendance

- 16.4.1 Average daily attendances of less than 50 visits were registered at 97 (69.3%) health facilities while another 29 (20.7%) health facilities have catered for 51 to 100 patients and yet another 14 health facilities (10.0 %) had over 100 visits per day. Goodlands Mediclinic and Triolet Mediclinic had registered an average daily attendance of more than 300 visits while Riviere du Rempart AHC, Stanley Mediclinic and Plaine Verte MC had attendances ranging between 200 to 300 visits.
- 16.4.2 Regarding mediclinics, Goodlands registered 383 visits on average per day followed by 310 visits at Triolet, 231 visits at Stanley, 208 at Plaine Verte, 190 visits at Belvedere, 173 visits at Quartier Militaire, 172 visits at Bel Air, 164 visits at Floreal, 132 at Coromandel, 125 at Petite Riviere, 81 at L'escalier and 78 visits at Grand Bois.

- 16.4.3 Among AHCs and CHCs, highest daily attendance of 260 visits on average was recorded at Riviere du Rempart AHC followed by 148 visits at Ste Croix CHC, 118 visits at Bambous AHC, 110 visits at Chemin Grenier AHC, 96 at Baie du Tombeau CHC and 93 visits at Castel AHC.
- 16.4.4 Goodlands Mediclinic registered the highest morning attendance at general consultations with an average of 147 visits followed by Riviere du Rempart AHC and Triolet Mediclinic with 135 and 125 visits respectively, Stanley MC with 103 visits, 95 visits at Ste Croix CHC, 67 visits at Petite Riviere MC, 65 visits at Bel Air Mediclinic, Plaine Verte Mediclinic, Baie du Tombeau CHC and Le Hochet CHC. 114 facilities reckoned between 10 -61 cases per session while 16 centres registering less than 10 cases.
- 16.4.5 In the afternoon also, Goodlands Mediclinic registered the highest average attendance of 101 visits followed by 74 visits at Triolet Mediclinic and 71 visits at Riviere du Rempart AHC and 59 visits at Stanley Mediclinic. The other centres registered less than 58 visits including 28 centres with less than 10 cases.
- 16.4.6 During extra sessions, Goodlands Mediclinic and Triolet Mediclinic again registered the highest average attendance of 163 and 128 visits respectively followed by 93 visits at Stanley Mediclinic, 91 visits at Plaine Verte Mediclinic, 87 visits at Belvedere Mediclinic, 80 visits at Floreal MC, 75 visits at Quartier Militaire Mediclinic and 65 visits at Bel Air MC.
- 16.4.7 Primary health centres have encountered 5,541 visits daily in 2024 compared to 5292 visits in 2023.

16.5 Other MHO Consultations

- 16.5.1 MHO consultations consisted of attendances for the following services: Breast and Cervical Screening, Cash Gift, Family Planning, Maternal and Child Health, NCD Screening, Fertility Clinic, Smoking Cessation Clinics and Occupational Health Medicine (OHM). New Geriatric Clinic was introduced at Stanley MC. Exercise Clinics were launched at Plaine Verte, Bel Air and Stanley Mediclinics.

Table 18: Other MHO Attendances – 2024

Service	No. of Health Centres	Attendance	Average attendance per session
Breast & Cervical Screening	18	1,812	2
Cash Gift	140	18,776	3
Exercise Referral scheme	3	769	4
Family Planning	139	24,993	4
Geriatric	1	189	9
Maternal & Child Health	140	26,396	4
NCD Mobile Screening	1	144	3
Occupational Medicine (OHM)	15	3,447	8
Fertility Clinic	2	68	1
Smoking Cessation Clinic	3	213	2

- 16.5.2 76,807 visits were registered with an average of 6 cases seen per session.

- 16.5.3 Attendance increased by 4.7% compared to last year but has gone down by 2.1% on average annually for period 2020 to 2024.
- 16.5.4 Health region I has encountered 22,058 visits (28.7%) followed by 16,980 visits (22.1%) at Health region II, 14,926 visits (19.4%) at Health region V, 14,260 visits (18.6%) at Health region III and 8,583 visits (11.2%) at Health region IV.
- 16.5.5 Stanley Mediclinic has encountered the highest attendance of 2,481 visits followed by 2,335 visits at Goodlands MC, 1,999 visits at Baie du Tombeau CHC and 1,902 visits at Ste Croix CHC while the rest have recorded less than 1,900 visits. 8 centres recorded less than 100 visits with the lowest attendance of 68 visits at L'esperance CHC, 65 visits at Riviere du Poste CHC, 56 visits at Camp Thorel CHC and 44 visits at Congomah CHC for the whole year.
- 16.5.6 All health centres, except Camp Thorel CHC have conducted Family Planning, Maternal & Child Health and Cash gift clinics reckoning an average attendance of 4 cases for Family Planning and Maternal & Child Health clinics and 3 cases for Cash Gift activities.

16.6 Specialist Clinics

- 16.6.1 Decentralisation counts 13 Speciality Service offered in Primary Health Care Centres. and 11 specialist clinics have started at 36 Health Centres this year. 6 Health Centres started Rheumatology Clinic, 5 Health Centres started Dermatology while Diabetology, Orthopaedics, and Psychiatric Clinics started at 4 Health Centres. General Medicine, General Surgery and Paediatric Clinics started at 3 Health Centres, Cardiology Clinic started at 2 Health Centres while Chest Diseases and Laser (Ophthalmology) started at 1 Health Centre.
- 16.6.2 69 health centres conducted Diabetology clinics followed by Psychiatric Clinics at 27 centres, Obstetrics and Gynaecology and Paediatric clinics at 22 centres, Dermatology clinics at 17 health centres, Physical Medicine at 16 health centres, General Medicine and Orthopaedics at 15 health centres, Cardiac, Chest Diseases and General Surgery at 9 health centres, ENT at 3 health centres and Ophthalmology clinics at 2 health centres.
- 16.6.3 94,107 visits were encountered in 8,044 sessions which ranged from 0 to 47 cases per session. Highest attendance was registered at Diabetology Clinics with 48,269 visits representing 51.3% of all visits. It was followed by 13,568 visits (14.4%) at Psychiatry clinics, 9,378 visits (10.0%) at Obstetrics and Gynaecology clinics, 7,035 visits (7.5%) at Physical Medicine and 3763 visits (4.0%) at Dermatology Clinics. The other clinics catered to between 600 - 3300 cases except for Ophthalmology services where 65 sessions were held at Belvedere Mediclinic but only 93 cases were encountered.

- 16.6.4 Attendance has increased by 31.8% in 2024 and 21.3% annually between 2020 and 2024.

16.7 Other Health Professionals clinics

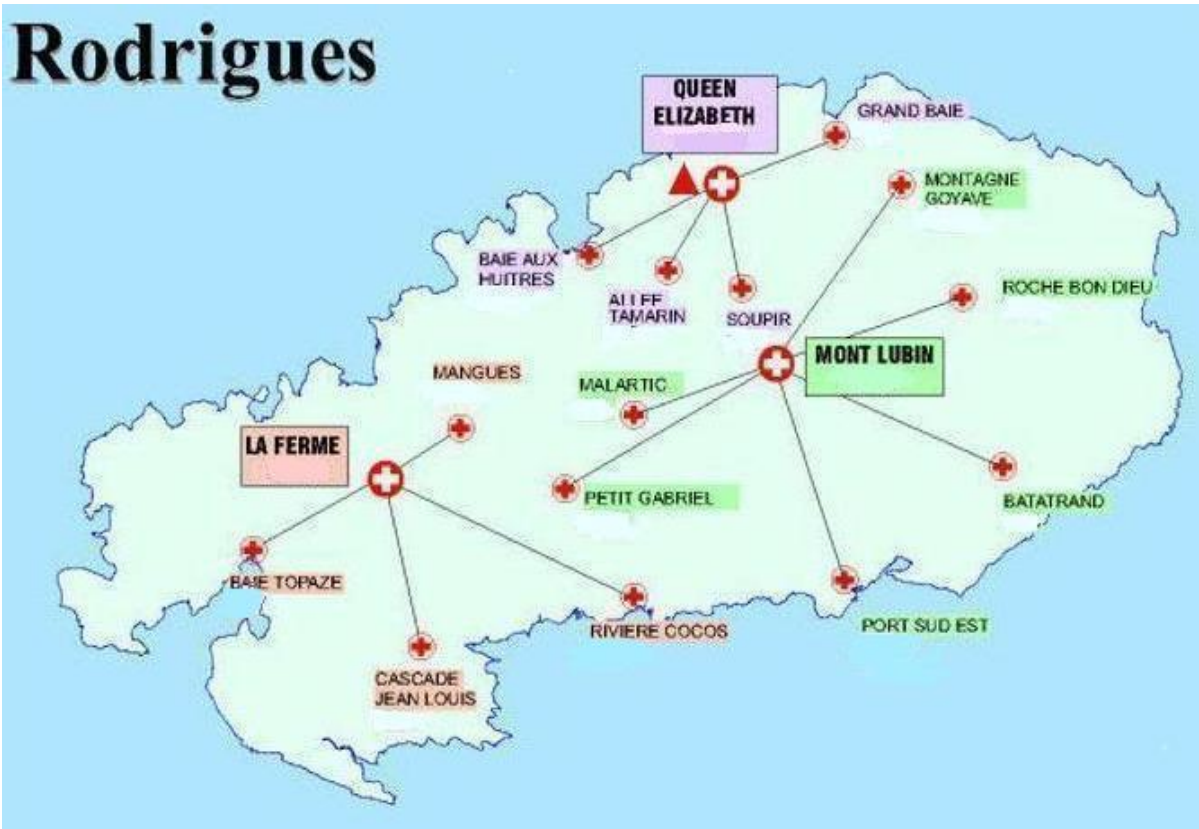

- 16.7.1 Diet Clinics were conducted at 135 health centres with 25,508 visits encountered in 2,996 sessions. An average of 9 cases was seen per session.
- 16.7.2 Highest of 707 visits was encountered at Stanley MC in 54 sessions followed by 689 visits in 64 sessions at Triolet Mediclinic, 652 visits in 79 sessions at Grand Bois Mediclinic, 651 visits in 58 sessions at Chemin Grenier AHC, 611 visits in 45 sessions at Bel Air MC, 549 visits in 47 sessions at Riviere du Rempart AHC, 539 visits in 62 sessions at Rose Belle AHC, 532 visits in 38 sessions at New Grove AHC, 522 visits in 51 sessions at Goodlands Mediclinic and 498 visits in 51 sessions at Petite Riviere MC among others. Only 4 cases were encountered at Pailles CHC.
- 16.7.3 Foot Care clinics were conducted at 11 primary health centres. 8,054 visits were encountered in 1092 sessions with an average of 7 cases per session.
- 16.7.4 Foot Care clinics at Goodlands Mediclinic registered 1,455 cases in 232 sessions followed by 1,425 cases at Plaine Verte in 98 sessions, 1,351 visits at Triolet MC in 229 sessions, 983 visits at Beau Bassin AHC in 112 sessions, 900 visits at Dagotiere CHC in 50 sessions, 678 visits at L'Escalier Mediclinic in 166 sessions, 448 visits at Trefles CHC in 73 sessions, 386 visits at Bel Air MC in 25 sessions, 345 visits in 88 sessions at Phoenix CHC, 42 visits in 13 sessions at Beau Songes CHC and finally 41 visits in 6 sessions at Dubreuil CHC.
- 16.7.5 Activities of Diet and Foot Care clinics have increased by 20.7% and 11.6% respectively in 2024. For period 2020 to 2024, attendance at Diet clinics has increased by 16.7% on average annually and 7.7% at Foot Care clinics.

16.8 Lowest Attendances

- 16.8.1 Lowest attendances were recorded at Cardiology clinics at Belvedere Mediclinic where only 1 case were encountered in 4 planned clinic sessions.
- 16.8.2 Out of 8,044 planned sessions held for specialist clinics, 657 sessions had no attendances in the following specialties: 145 sessions in Paediatrics clinics, 121 sessions in Diabetology clinics, 86 sessions in Obstetrics and Gynaecology clinics, 67 sessions in Cardiology clinics, 61 sessions in General Medicine clinics, 48 sessions in Ophthalmology clinics, 45 sessions in Psychiatric Clinics, 26 sessions in Orthopaedics clinics, 23 sessions in General Surgery clinics, 14 sessions in Dermatology clinics, 10 sessions in Chest Diseases and Physical Medicine clinics and finally 1 session in ENT clinic.

- 16.8.3 Belvedere Mediclinic did not have any patient in 48 Laser (Ophthalmology) clinic sessions followed by 42 clinic sessions in Paediatric clinic at Montagne Blanche AHC, 30 Cardiac clinic sessions at Petite Riviere MC and 24 General Medicine clinic sessions at Riviere du Rempart AHC, 21 General Surgery clinic sessions at Vacoas Club Rd AHC, 20 Paediatric clinic sessions at Beau Bassin AHC among others. For Psychiatric and Obstetrics & Gynaecology clinics there were no patients in 19 clinic sessions at Floreal MC and Dagotiere CHC, 16 Cardiology clinic sessions at Plaine Verte Mediclinic. For Orthopaedics and Paediatrics clinics there were no patients in 14 sessions at Petite Riviere Mediclinic and Riviere du Rempart AHC. Finally 11 clinics sessions at Floreal and Triolet Mediclinics did not have any patient in Diabetology and Paediatrics clinics.
- 16.8.4 Family Planning service did not register any case at Camp Thorel CHC.

ISLAND OF RODRIGUES

Overview of the Health Service in 2024

The Island of Rodrigues had an estimated mid-year resident population of 44,204 inhabitants in 2024 comprising 21,584 males and 22,620 females. 31.8% of the population was under 18 years of age, 55.2% was between 18 to 59 years and 13.0% was 60 years and above.

Health services were provided free of cost by the Republic of Mauritius to every citizen of the Island of Rodrigues. The Queen Elizabeth Hospital, Mont Lubin and La Ferme AHCs together with 11 CHCs are the most prominent institutions that provide care and treatment to the whole population. Allee Tamarin, Grand Baie and Malartic CHCs were not operational in 2023 and 2024. Mont Lubin (Zita Jean Louis) Area Health Centre was still an Isolation Centre for Covid-19 and Dengue with routine primary care service dispensed at Marie Jacqueline Felicite Area Health Centre.

Full-time facilities are available in the specialties of General Medicine, General Surgery, Orthopaedics, Obstetrics and Gynaecology, Paediatrics and Psychiatry while specialists in other disciplines undertake periodic visits to the Island. Cases requiring additional care and treatment are transferred to Mauritius free of charge.

Almost all services are manned locally except for a large number of doctors and few other officers in the departments of Health Records, Laboratory and Radiology services who come on tour of service from Mauritius.

The Haemodialysis Unit of Queen Elizabeth Hospital is equipped with 10 dialysis machines that operate 2 sessions per day.

The e-health system was partially in use at the Accident and Emergency Department of Queen Elizabeth Hospital and La Ferme (Dr Christopher Prudence) Area Health Centre.

Executive Summary - Rodrigues

- 17.1.1 Even if activities have returned back to normal as in 2019, prior to the pandemic period of 2020-2022, the old building at Mont Lubin (Zita Jean Louis) AHC was still being used as Isolation Centre in 2024. However, only 3 out of 5 wards were operational in 2024. Allee Tamarin, Grand Baie and Malartic CHCs were still not operational while main visiting specialists from Mauritius have effected their respective visits in 2024.
- 17.1.2 308,791 visits were encountered at public health institutions in Rodrigues indicating 3.0% increase in attendances compared to 2023 and 844 visits on average per day.
- 17.1.3 At the Accident and Emergency Department, 134,735 visits for consultation were registered indicating 3.3% increase in 2024. Queen Elizabeth Hospital catered for an average of 131 visits daily, 130 visits at Mont Lubin AHC and 109 at La Ferme AHC.
- 17.1.4 Nursing Officers have catered for 49,869 visits at the three main institutions in spite of doctors being available onsite. Cases have increased by 20.0% in 2024.
- 17.1.5 The Sorted OPD catered for 55,121 visits depicting a drop of 3.4% in attendance mainly owing to decrease in sessions of visiting specialists.
- 17.1.6 The eleven Community Health Centres have registered 38,512 visits indicating a drop of 5.5%. Attendance has increased at Baie Topaze, Batatrand and Montagne Goyave CHCs by 50.2%, 43.9% and 19.6% respectively while it has dropped at the other Community Health Centres.
- 17.1.7 Local Dental Clinics have attended to 16,209 cases indicating 14.1% increase in attendances in 2024. Dental extractions have gone up by 11.4% affecting both adults and children with an increase of 26.9% for extraction of deciduous teeth.
- 17.1.8 Visiting specialists from Mauritius have undertaken 37 visits and have seen 5,349 cases compared to 6,406 cases seen during 37 visits in 2023. 1,697 cases were on the waiting list as at 31 December 2024 compared to 2,638 cases as at 31 December 2023. This includes 398 cases for the Department of Cardiology and 348 for Ophthalmology among others. Nephrologists have stayed in the Island for 7 days during each of the three visits but have conducted 1 – 3 outpatient clinic sessions only.
- 17.1.9 11,358 admissions occupied 47.3% of beds and 2.9 days of stay indicating 0.6% drop in 2024. However, Mont Lubin AHC which was reserved for isolation as in 2023 have catered for 390 admissions this year but none were for Covid-19 cases 188 inpatient deaths were encountered at Queen Elizabeth Hospital accounting for an overall Fatality Ratio of 1.5%.

- 17.1.10 1,954 surgeries were carried out consisting of 1,650 cases performed by resident specialists and 304 by visiting ones. Surgeries have gone down by 1.8% this year.
- 17.1.11 The Department of General Surgery has performed the highest of 601 surgeries followed by 562 cases by Obstetrics and Gynaecology.
- 17.1.12 740 deliveries were carried out including the two Area Health Centres which undertook 5 normal deliveries. Deliveries have gone down by 2.1% but caesarean sections have gone up to 41.5% of total deliveries.
- 17.1.13 4 neonatal deaths and 4 stillbirths this year indicated a slight increase in infant mortality. No maternal death was encountered in 2024. Low birth weight cases have gone up to 13.7% of total births.
- 17.1.14 Attendance at Smoking Cessation Clinics has increased significantly from an average of 22 cases during the last four years to 207 cases in 2024.
- 17.1.15 Activity has gone down by 28.6% at Physiotherapy services, 2.4% at Radiology services, 2.1% at Diet Clinics and 2.0% at Haemodialysis but has increased by 43.2% at Chemotherapy and 9.9% at Laboratory tests. The Retinal Screening service has screened 268 patients including 264 new cases. The Foot Care services has started its activity in 2024 after no sessions were carried out in 2022 and 2023 due to unavailability of space to host this activity. 745 patients were seen in 105 sessions including 499 patients seen in 50 sessions at La Ferme AHC. No sessions were held at Mont Lubin AHC in 2024.
- 17.1.16 There were no admissions of patients with COVID-19 cases in 2024.

Overall Attendance

- 18.1.1 Queen Elizabeth Hospital together with Mont Lubin AHC and La Ferme AHC provided primary care and inpatient service on a 24-hour basis backed by 11 CHCs which operated during normal working hours only.
- 18.1.2 308,791 contacts have taken place across all health institutions in 2024. Overall ambulatory attendance comprised 114,349 cases (37.0%) at Queen Elizabeth Hospital, 88,299 cases (28.6%) at Mont Lubin AHC, 67,631 cases (21.9) at La Ferme AHC and 38,512 (12.5%) at the CHCs.
- 18.1.3 Attendance has increased by 3.3% at Queen Elizabeth Hospital, by 4.9% at Mont Lubin AHC and by 5.4% at La Ferme AHC while it has gone down by 5.5% at Community Health Centres. However, among the CHCs, significant increases were noted at Baie Topaze and Batatrand CHCs with 50.2% and 43.9% respectively.
- 18.1.4 An average of 844 persons has attended local health institutions daily in 2024.

- 18.1.5 Visits have increased by 3.0% in 2024 and by 0.6% annually for the five-year period of 2020 – 2024.

Accident and Emergency Department

- 19.1.1 The Accident and Emergency Departments at Queen Elizabeth Hospital, Mont Lubin AHC and La Ferme AHC have received to 134,735 visits during the year.

- 19.1.2 As in the previous years, Queen Elizabeth Hospital had the highest attendance of 47,667 (35.4%) visits followed by Mont Lubin AHC with 47,319 visits (35.1%) and La Ferme AHC with 39,749 visits (29.5%).
- 19.1.3 An average of 369 patients was seen by doctors daily with 131 cases at Queen Elizabeth Hospital, 130 at Mont Lubin AHC and 109 at La Ferme AHC depicting an increase in attendance.
- 19.1.4 Attendance has thus gone up by 3.3% in 2024 including 15.9% increase at La Ferme AHC but has gone down by 1.9% at Queen Elizabeth Hospital and by 0.6% at Mont Lubin AHC. An annual increase of 2.0% is noted for the five-year period of 2020 – 2024.
- 19.1.5 Attendance has followed the usual trends of normal years with some increase during the winter season followed by drops in the last months of the year.
- 19.1.6 Nursing officers have catered for 49,869 visits including advice tendered to some 35,296 patients and having carried out some 22,125 sutures and dressings. Patients seen by nurses while doctors were available have increased by 20.0% this year.

Sorted Outpatient Department

MHOs conducted Outpatient Clinics of INR and Oncology as from 2020 but have been reported hereunder as from 2022. Hepatitis C clinic has been stopped since July 2023. Cases are seen at General Medicine OPD by specialist.

20.1 Sessions

- 20.1.1 2,065 clinic sessions were held at Queen Elizabeth Hospital and the two AHCs comprising 941 sessions of resident specialists, 133 of visiting specialists, 647 antenatal clinics and 344 MHO clinics.
- 20.1.2 Clinic sessions of resident specialists have gone up by 2.4% but those of visiting specialists have gone down by 5.0% in 2024. Sessions of antenatal has increased by 23.5% while NCD and MHO clinics have gone down this year compared to 2023. On the whole, clinic sessions have increased by 2.8% in 2024
- 20.1.3 Queen Elizabeth Hospital has conducted 935 sessions (45.3%) followed by 612 and 518 sessions at Mont Lubin AHC and La Ferme AHC respectively. Sessions have increased this year by 8.9% at Mont Lubin AHC and by 4.9% at La Ferme AHC while it has gone down by 1.9% at Queen Elizabeth Hospital.

20.1.4 Each specialty among resident ones has conducted between 145 to 197 sessions in 2024. Sessions among visiting specialists obviously had large variations.

20.1.5 Clinic sessions have continuously increased in the last five years and showed an average annual increase of 3.7% between 2020 and 2024.

20.2 New Cases

20.2.1 7,947 new cases were registered indicating 9.2% decrease in 2024. Resident specialists have seen 4,399 cases showing a drop of 1.3% and visiting specialists have seen 1,695 cases depicting a drop of 30.0% compared to 2023.

20.2.2 The Department of Orthopaedics as usual has recorded the highest attendance of 1,131 new cases followed by 961 for General Medicine, 902 for General Surgery, 528 for Obstetrics and Gynaecology, 519 for Paediatrics, 518 for Ophthalmology and the rest having seen less than 400 cases each.

20.3 Overall attendance

20.3.1 55,121 cases were seen at the Sorted Outpatient Department in 2024 which depicts the second highest attendance ever recorded in the Island. It comprises 32,437 cases seen by resident specialists, 5,349 cases by visiting specialists, 9,366 cases in NCD clinics, 6,692 cases at antenatal clinics and 1,277 cases at other MHO clinics. An average of 27 cases were seen per clinic session.

20.3.2 Overall attendance has gone down by 3.4% this year after increases since 2021 while it showed an increase of 3.6% on average annually for period 2020 to 2024.

20.4 Resident Specialist clinics

20.4.1 Attendance at clinics of resident specialists has gone down by 2.1% in 2024 with a drop of 21.7% at the Department of General Surgery, 11.8% in Obstetrics and Gynaecology, 11.6% in Orthopaedics among others. However, cases have increased by 16.3% at the Department of General Medicine.

20.4.2 Resident specialists have seen an average of 41 cases per session at Queen Elizabeth Hospital, 33 cases at Mont Lubin AHC and 24 cases at La Ferme AHC. Most specialties have seen between 23 and 47 cases on average per session.

20.5 Visiting Specialist clinics

20.5.1 Attendance at almost all Visiting Specialists clinics has gone down this year resulting in a drop of 16.5% compared to 2023.

20.6 MHO clinics

- 20.6.1 Clinics of INR and Oncology have been added since year 2022. 723 cases were seen in INR clinics and 554 at the Oncology clinics in 2024.
- 20.6.2 Attendance at INR, Oncology and Antenatal clinics have gone down by 23.1, 14.5% and 0.5% respectively while those of NCD clinics have increased by 1.6% in 2024.

20.7 Attendance by Health Institution

- 20.7.1 Queen Elizabeth Hospital has catered for 30,578 cases followed by 14,368 cases at Mont Lubin AHC and 10,175 cases at La Ferme AHC. Attendance has decreased by 4.3% at Queen Elizabeth Hospital and 5.4% at La Ferme AHC and was almost the same at Mont Lubin AHC.
- 20.7.2 An average of 33 cases was seen per clinic session at Queen Elizabeth Hospital, 23 at Mont Lubin AHC and 20 at La Ferme AHC.
- 20.7.3 3,583 visits were encountered at NCD clinics of Queen Elizabeth Hospital followed by 3,283 cases at Mont Lubin AHC and 2,500 cases at La Ferme AHC.
- 20.7.4 6,692 cases were seen at Antenatal Clinics of all public health institutions. 2,839 cases were seen at Mont Lubin AHC Region followed by 2,107 cases at Queen Elizabeth Hospital Region and 1,746 cases at La Ferme AHC Region.

20.8 Attendance by Specialty

- 20.8.1 Resident specialists provided round-the-clock service at the Departments of General Medicine, General Surgery, Obstetrics and Gynaecology, Orthopaedics, Paediatrics and Psychiatry. In addition, except for Neurology, all other specialists have visited the Island in 2024.
- 20.8.2 As usual, the Department of General Medicine recorded the highest of 9,184 cases followed by 5,689 cases at Orthopaedics, 5,320 for Psychiatry, 4,460 for Paediatrics, 4,411 for General Surgery and 3,373 for Obstetrics and Gynaecology while among visiting specialists, the Department of ENT has seen 1,043 cases and 1,766 by Ophthalmology among others.

Community Health Centres

- 20.9.1 Allee Tamarin and Malartic CHCs were still closed following lockdown of 2020 while Grand Baie CHC was closed for renovation since 2023.

- 20.9.2 Eleven CHCs have thus seen 38,512 cases indicating a drop of 5.5% and 6.0% annually for the period 2020 to 2024.
- 20.9.3 Petit Gabriel CHC as usual has registered the highest of 10,819 visits followed by 5,917 visits at Riviere Cocos CHC, 5,087 at Port Sud Est CHC, 4,683 at Oyster Bay CHC and less than 2,300 visits at the remaining ones.
- 20.9.4 Attendance has increased by 50.2% at Baie Topaze followed by 43.9% at Batastrand, 19.6% at Montagne Goyave, 14.0% at Port Sud Est and 13.5% at Mangues CHC while it has dropped at the other health institutions with a significant drop of 29.9% at Riviere Coco.

Dental Service

- 21.1.1 Basic dental service comprising care and treatment, dental extractions, fillings and scaling was provided by 2 dental surgeons in post in the Island. Resident dental surgeons provided Endodontic Service while visiting surgeons carry out Orthodontics and Oral Surgery clinics whenever they visit the Island.
- 21.1.2 16,209 cases were treated by the General Dental Service in 1,382 sessions comprising 8,721 cases seen in 531 sessions at Queen Elizabeth Hospital, 4,440 cases in 463 sessions at La Ferme AHC and 3,048 cases in 388 sessions at Mont Lubin AHC. The service was available at the relocated Mont Lubin AHC in 2024.
- 21.1.3 On average, 12 cases were seen per session in 2024 with 16 cases at Queen Elizabeth Hospital, 10 cases at La Ferme AHC and 8 cases at Mont Lubin AHC.
- 21.1.4 Following trend of preceding years, 77.3% of visits were encountered in the morning with an average attendance of 16 cases per session while afternoon sessions catered for some 6 cases.
- 21.1.5 Endodontic treatment was provided in 255 cases only.
- 21.1.6 6,135 dental extractions were carried out comprising 3,865 extractions of permanent teeth and 2,270 cases of deciduous teeth. 140 cases of permanent tooth extraction were carried out on children. Extractions have increased by 11.4%, with extraction of permanent teeth reckoning 4.0% rise and deciduous ones going up by 26.9% in 2024. Extraction of permanent teeth among children has also increased by 3.7%. Dental extractions have gone up by 1.1% annually for period 2020 to 2024.
- 21.1.7 5,387 dental fillings were carried out comprising 3,001 cases at Queen Elizabeth Hospital, 1,358 cases at La Ferme AHC and 1,028 cases at Mont Lubin AHC. They

- included 1,098 fillings carried out on children of less than 12 years. Fillings have gone up by 11.7% this year with fillings of children rising by 72.6% compared to 2023.
- 21.1.8 388 cases of scaling were registered in 2024 compared to 153 in 2023. Cases of scaling comprise of 132 cases at Queen Elizabeth Hospital, 152 cases at La Ferme AHC and 104 at Mont Lubin AHC. Pit and Fissure sealant were applied on 5 patients in 2024.
- 21.1.9 Activity of Dental Clinics including Endodontics has gone up by 14.1% this year and it showed an annual increase of 1.2% between 2020 and 2024.

Visiting Specialists/Teams

- 22.1.1 All major specialties and other health professionals have visited the Island in 2024 except for Neurology. 51 visits were effected for a total of 369 days of stay.
- 22.1.2 The Department of Cardiology has undertaken 7 visits including Paediatrics Cardiology followed by 6 visits by the Department of ENT and Ophthalmology each, 4 by Physical Medicine and Oncology, 3 by Nephrology, 2 by Dermatology, Gastroenterology and Neurosurgery and 1 by Plastic Surgery.
- 22.1.3 133 outpatient clinic sessions were carried out consisting of 37 sessions in the Departments of Cardiology followed by 28 in Ophthalmology, 18 in Physical Medicine, 13 in Oncology, 12 in ENT, 7 in Dermatology, 6 in Neurosurgery and Gastroenterology, 5 in Nephrology and 1 in Plastic Surgery.
- 22.1.4 Nephrologists have stayed in the Island for 7 days during each of the three visits and have conducted 1 – 3 outpatient clinic sessions only. 19 patients were on waiting list as at 31 December 2024.
- 22.1.5 5,349 cases were seen consisting of 1,695 new cases and 3,654 follow-ups. The Department of Ophthalmology had attended to the highest of 1,766 cases followed by 1,043 cases by ENT, 948 by Cardiology, 539 by Physical Medicine, 460 by Dermatology and less than 300 cases by each of the remaining specialties.
- 22.1.6 Additionally, 137 cases were seen in 2 visits by Oral Surgery and 394 in 4 visits by Orthodontics.
- 22.1.7 Other health professionals in Orthopaedics Workshop have catered to 140 cases and Speech Therapy to 255 cases.

- 22.1.8 As at 31 December 2024, 1,697 cases were on the waiting list of visiting specialists indicating 35.7% drop. The Department of Cardiology had the longest list of 398 cases followed by 348 at Ophthalmology, 292 at ENT, 152 at both Dermatology and Physical Medicine, 135 at Oncology and less than 130 cases individually at the remaining specialties.
- 22.1.9 97 cases were waiting in Oral Surgery and 105 in Orthodontics while the Orthopaedics Workshop had 104 cases on list and 49 for the Speech Therapy Department.

Inpatient Service

23.1 Bed availability

- 23.1.1 The old building of Mont Lubin (Zita Jean Louis) AHC was still used as Isolation Centre in 2024 and limited inpatient service for routine cases was provided during the year.
- 23.1.2 14 wards were functioning in 2024 comprising 8 wards at Queen Elizabeth Hospital and 3 at both Mont Lubin and La Ferme AHCs.
- 23.1.3 An average of 211 general beds were daily available in 2024 consisting of 179 beds at Queen Elizabeth Hospital, 15 at Mont Lubin AHC and 17 at La Ferme AHC.

23.2 Admissions

- 23.2.1 11,358 cases were admitted this year indicating a drop of 0.6% compared to 2023. La Ferme AHC registered a significant drop of 77.2% following a 44.1% drop in 2023. For the five-year period of 2020 to 2024, admissions have dropped by 1.1% on average every year.

23.3 Bed Occupancy

- 23.3.1 Bed occupancy has decreased from 51.3% in 2023 to 47.3% in 2024. While Queen Elizabeth Hospital recorded 53.5% occupancy and Mont Lubin AHC 23.1%, beds were only 2.6% occupied at La Ferme AHC.
- 23.3.2 Male Ward at Queen Elizabeth Hospital reckoned the highest bed occupancy of 68.7% while the three Wards at La Ferme AHC registered a percentage occupancy of less than 4% each.
- 23.3.3 103 adults and 480 newborns were admitted in the respective intensive care units.

23.4 Length of stay

- 23.4.1 Length of stay was around the normal of 2.9 days including that of 3.2 days at Mont Lubin AHC, 2.9 days at Queen Elizabeth Hospital and 3.6 days at La Ferme AHC.
- 23.4.2 On the other hand, turnover interval, that is, the time a bed remaining vacant between a patient leaving it and another one occupying it, was 2.5 days at Queen Elizabeth Hospital, 10.7 days at Mont Lubin AHC and 134.7 days at La Ferme AHC.

23.5 Inpatient deaths

- 23.5.1 188 inpatient deaths occurred at Queen Elizabeth Hospital in 2024 compared to 149 in 2023 indicating a 26.2% increase. However, Fatality Ratio has increased from 1.2% in 2023 to 1.5% in 2024.
- 23.5.2 102 deaths among those aged 70 or more have occurred in 2024 representing 54.3% of all deaths. 9 infants of less than 1 year have passed away representing 4.8% of all deaths. 4 stillbirths were also registered.
- 23.5.3 Among the primary cause of death, 58 (30.9%) patients suffered from disease of the Circulatory System followed by 37 (19.7%) from Infectious and Parasitic disease, 29 (15.4%) from disease of the Respiratory System, 8 (4.3%) from Neoplasm, 6 (3.2%) from both disease of the Digestive System and from condition originating in perinatal period among others.

23.6 Isolation for COVID-19

- 23.6.1 There was no admission of patient with COVID-19 in the Island in 2024.

Surgeries performed

- 24.1.1 Surgeries were carried out at Queen Elizabeth Hospital only.
- 24.1.2 1,954 surgeries took place in 988 sessions. 1,650 cases were undertaken by resident specialists and 304 cases by visiting surgeons.
- 24.1.3 1,230 planned surgeries were carried out in 398 planned sessions while 724 emergencies were carried out in 590 sessions.
- 24.1.4 Surgeries have gone down by 1.8% in 2024 after an increase in 2023. For period 2020-2024, total surgeries showed an increase of 0.6% annually.
- 24.1.5 The Department of General Surgery has performed the highest number of surgeries with 601 cases. This was followed by 562 cases in Obstetrics and Gynaecology and 487 in Orthopaedics. As for the visiting specialties, 214 were performed by ENT, 74

cases by Ophthalmology, 14 by Plastic Surgery and 1 by both Neurosurgery and Oral Surgery.

- 24.1.6 An average of 3 surgeries was carried out in cold sessions and only 1 case during emergency sessions. Both resident and visiting surgeons have performed some 2 cases per session.
- 24.1.7 1,135 surgeries were carried under general anaesthesia, 20 cases required spinal anaesthesia and 7 required local anaesthesia.

Deliveries and Births

- 25.1.1 Deliveries were mainly carried out at Queen Elizabeth Hospital and only 5 cases at the two AHCs. 740 deliveries were carried out in 2024 indicating a drop of 2.1% as compared to 2023 and it shows a drop of 1.2% during the five-year period of 2020 to 2024.
- 25.1.2 Total deliveries consisted of 432 (58.4%) normal ones, 307 (41.5%) caesarean sections, 1 forceps (0.1%) and no breech deliveries. 735 deliveries took place at Queen Elizabeth Hospital, 2 at Mont Lubin AHC and 3 at La Ferme AHC.
- 25.1.3 Caesarean sections which have dropped from 38.5% in 2020 to 37.5% in 2021 to 37.0% in 2022 have gone up in 2023 to 40.5% and further increase this year to 41.5%
- 25.1.4 Both AHCs have carried out normal deliveries in 2024.
- 25.1.5 742 births took place consisting of 738 single and 2 twin deliveries.
- 25.1.6 4 neonatal deaths were encountered and 4 stillbirths. No maternal death was registered in 2024.
- 25.1.7 Rate of stillbirth was 0.5% of all births in 2024 but low birthweight was 13.7%, depicting an increase as compared to 2023.

Support Services

26.1 Chemotherapy

- 26.1.1 230 patients have undergone 318 sessions of chemotherapy indicating a significant increase of 43.2% in sessions this year and regarding patients, it has gone down from 289 in 2023 to 230 in 2024.

26.2 Diet and Nutrition Clinics

26.2.1 4,608 cases, of which 2,140 were new patients, were seen by local dietitians. Mont Lubin AHC has catered for 1,663 cases followed by 1,496 cases at Queen Elizabeth Hospital and 1,449 at La Ferme AHC.

26.2.2 New cases have increased by 13.2% while total attendance has gone down by 2.1%.

26.2.3 Queen Elizabeth Hospital and La Ferme AHC have seen some 15 visits per session while only 9 visits were seen at Mont Lubin AHC.

26.3 Foot Care

26.3.1 105 sessions were carried out and 745 cases were seen consisting of 499 cases at La Ferme AHC and 246 cases at Queen Elizabeth Hospital. No sessions were held at Mont Lubin AHC in 2024 due to unavailability of place to host this activity.

26.4 Haemodialysis

26.4.1 10 haemodialysis machines were in use at Queen Elizabeth Hospital for 2 sessions per day. 80 patients were on haemodialysis during 2024 including 31 new cases. 12 patients passed away during the year while 53 patients were still on dialysis at the end of the year. 6,713 haemodialysis sessions were carried out.

26.4.2 Haemodialysis sessions have gone down by 2.0% this year. It has however increased by 11.2% annually for period 2020 to 2024.

26.5 Laboratory Service

26.5.1 Six Sections of the Laboratory Service have processed 404,218 specimens and performed 827,373 pathological tests indicating 9.9% increase in 2024. Tests have also increased by 4.2% on average every year from 2020 to 2024.

26.5.2 As usual, the Haematology Section has conducted the highest number of tests compared to the other sections. It has performed 382,957 tests (46.3%) followed by 346,101 tests (41.8%) by the Biochemistry Section while the other four sections have catered for 11.9% of the tests.

26.5.3 All Sections have registered increase in their activity this year except the Virology Department where it has further gone down by 7.5% in 2024 after a major drop of 71.5% in 2023.

26.5.4 In addition, 11,821 specimens were sent to Mauritius for testing.

26.6 Physiotherapy

26.6.1 This Service was available at Queen Elizabeth Hospital only and has catered for 3,299 visits which comprised 1,486 outpatients and 1,813 inpatients. Cases have dropped significantly from June to December 2024 due to unavailability of Physiotherapist in the Island. New patients accounted for 26.7% of all attendances.

26.6.2 Attendance has dropped by 28.6% this year after increase in 2023 while it also shows a drop of 8.2% on average every year from 2020 to 2024.

26.7 Retinal Screening

26.7.1 72 sessions of Retinal Screening were carried out in 2024 at the Queen Elizabeth Hospital where 268 patients were screened including 264 new cases.

26.8 Smoking Cessation Clinic

26.8.1 Queen Elizabeth Hospital conducted one monthly session in 2024 where 207 cases were seen in 144 sessions.

26.9 Stress Test

26.9.1 Only 2 cases of Stress Tests were performed in February 2024. Machine was out of order as from March 2024.

26.10 X-ray Examinations

26.10.1 23,133 x-ray examinations were carried out at Queen Elizabeth Hospital. X-ray Unit was not operational at Mont Lubin AHC in 2024. Cases have gone down by 2.4% this year. It however shows an average annual increase of 2.6% from 2020 to 2024.

26.10.2 As usual, highest number of x-ray examinations were carried out on extremities (7,849) followed by 5,493 examinations of the chest, 2,159 of the skull, 1,565 of the spine and 1,330 of the abdomen. 4,729 echography examinations were also performed. No Ct-Scan was carried out in 2024 due to breakdown of the machine for the whole year.

26.10.3 X-ray examinations carried out on Chest has increased by 22.7% followed by 9.6% for Abdomen and 7.1% for Skull while the other examinations registered drops.

Surveillance of Diseases

27.1 Conjunctivitis

27.1.1 746 cases were registered in 2024 with 269 cases at Queen Elizabeth Hospital, 310 at Mont Lubin AHC and 167 at La Ferme AHC. Average monthly attendance was 62

cases with the highest of 85 cases recorded in May and the lowest of 32 cases in April. An overall increase of 19.4% is noted.

27.2 Gastroenteritis

27.2.1 3,327 cases were registered with Mont Lubin AHC recording the highest of 1,579 cases followed by 1,000 at Queen Elizabeth Hospital and 748 at La Ferme AHC. Cases have increased by 16.1% on the whole in 2024 and indicated a 4.2% rise on average every year from 2020 to 2024.

27.2.2 Average monthly attendance was 277 compared to 239 cases in 2023 with the highest of 349 cases recorded in October and the lowest of 194 cases in November.

27.3 URTI (Upper Respiratory Tract Infection)

27.3.1 19,008 cases were registered with Mont Lubin AHC recording the highest of 9,892 cases followed by 6,279 cases at Queen Elizabeth Hospital and 2,837 cases at La Ferme AHC. Cases have gone down by 9.0% on the whole with a major drop of 50.3% at La Ferme AHC and it showed a drop of 2.4% annually from 2020 to 2024.

27.3.2 Average monthly attendance has decreased from 1,739 cases in 2023 to 1,584 cases this year with the highest of 2,746 cases recorded in June and the lowest of 696 cases in December.

27.4 Others

27.4.1 37 amputations, 50 tubal ligations, 11 AV Fistula and 101 Gastroscopy were performed in 2024. Cases of amputation have increased by 32.1% while those of tubal ligation have gone down by 26.5%.

NCD Mobile Screening Service

28.1.1 87 screening sessions were held at 71 different sites in 2024 where 3,411 persons were registered resulting in an average of 39 cases per session.

28.1.2 Attendance included 2,111 persons from the community and 1,300 students from 11 schools.

28.1.3 20 probable new cases of diabetes mellitus were detected including 18 adults. 114 probable new cases of hypertension were also detected including 5 students. 415 persons were found to be overweight and another 571 were obese. These included

101 overweight and 175 obese students. Overweight and obesity represented 12.2% and 16.7% of total attendance respectively.

Agalega and Other Outer Islands

The Island of Agalega had a mid-year resident population of 330 inhabitants comprising 167 males (50.6%) and 163 females (49.4%) excluding Indian migrant workers. Figures are based on census 2022. No change in population is noted as from 2020.

Health service activities of the Island, which consist of two health centres, are accounted under Dr A G Jeetoo Health Region. Medical and nursing staff are deployed from Mauritius on tour of service while dentists' effect quarterly visits to the Island.

Data became available as from 2018 for this Island.

- 29.1.1 16,370 contacts have taken place in 2024 representing some 45 visits daily at the two health centres. Attendance has decreased by 12.7% this year following a 23.2% increase in 2023.
- 29.1.2 8,740 doctor consultations took place indicating 3.3% drop with decrease noted at all the services except a rise of 8.0% at General Consultation.
- 29.1.3 3,364 admissions were recorded compared to 1,522 in 2023 indicating a major rise of 121.0%. 284 cases were referred to Mauritius for further treatment.
- 29.1.4 The Dental Service reckoned 175 visits indicating 13.4% decrease in 2024.

SUMMARY STATISTICS OF GOVERNMENT HEALTH SERVICES : 2020 - 2024

LEGEND: A = average number of specialists available throughout the year and, B = number of clinic sessions held per week

Square brackets indicate number of sessions held per month

<> = same specialty

NOTE: Total includes 58 sessions conducted by MHOs per week and 595 by specialists but excludes monthly sessions designated in square brackets

ACTUAL ATTENDANCE OF CLINIC SESSIONS AT SORTED OPD : 2024

Hereunder figures depict the number and percentage of clinic sessions having catered for the corresponding number of cases in the whole year, e.g., at ZZZ Hospital, between 00 - 000 cases were seen in 9999 sessions.

Source: Respective Support Department

[1] Figures include cases seen at health centres and outstations

[2] Service started in 2024

[3] Carried out at private clinics

[4] Figures include inpatient and outpatient attendances

[5] Discontinued since May 2021

[6] Service stopped in 2023

[7] See Activity at Health Centres at Pages 113 -116 for PHC attendances

[8] Carried out at Goodlands and Triolet Mediclinics

Shaded cells indicate service is not available

Source: Respective Support Departments

* Haemodialysis, Diet Clinic, and Retinal Screening are carried out at SDVHC

[1] Includes cases seen at outstations

[5] Conducted at the Beau Bassin Workshop

[2] Includes talks given on radio, at workshops and Mobile Clinic Screening

[6] Conducted at GMC instead of SSRNH

[3] Conducted at Quartier Militaire MC as from July 2024

[7] Conducted at BMC instead of FH

[4] Service started at SH as from January 2023

NOTE

Data of Inpatient Activity (page 81 and 82) will not tally with Activity of Wards (page 72 to 78) as:

- Patients may be admitted in any ward owing to 100% bed occupancy in designated
- Length of stay includes patients of previous year discharged in the current year;
- Patients treated by many specialties but accounted where most utilised.

CERTAIN CONDITIONS PRESENT AT TIME OF INPATIENT DEATH : 2024

Below is a list of common chronic conditions and others which were present around the time of death but which were not necessarily the actual cause of death.

Figures do not provide for mutually exclusive diseases, for e.g, Tuberculosis and/or Hepatitis was/were not considered in the presence of HIV/AIDS or unstable angina in other heart diseases. However, some chronic diseases have been enumerated irrespective of other closely related conditions, for e.g, Hypertension has been included even in the presence of other diseases of the circulatory system.

Text in brackets at each sub-heading indicates chapters of the International Classification of Diseases, Tenth Edition (ICD-10)

Important : These conditions are not necessarily the underlying causes of death.

Age Group (years)	Below 1		1 - 4		5 - 11		12 - 19		20 -29		30 - 39		40 - 49		50 - 59		60 - 69		70 and above		Subtotal		Total

GLOSSARY

ATTENDANCE	An encounter of a patient with a health facility
AVAILABLE BED DAYS \$	A bed within a staffed ward which is either already occupied by a patient or to which the hospital would be prepared to admit a patient, calculated as the number of beds minus closed beds multiplied by days in the period.
AVERAGE ANNUAL CHANGE	Is the percentage of the sum of the yearly variations in the period over the total number of years in that period
AYURVEDIC MEDICINE	A form of homeopathic or alternative medicine
BASIC CARE	Primary care and treatment
CHILD/CHILDREN	Below age of 15 years
COLD SESSION	A planned operating session for patients called from the waiting/booked list.
COLD CASE	A patient from the waiting/booked list who is operated upon in a planned operating session.
DAY CARE BED	A bed which is available during the day only and is not included in the number of available beds.
DAILY AVAILABLE BEDS	Number of beds available during a day for every staffed ward of a hospital excluding day care beds. It is usually expressed as an average for a given period.
DELIVERY	The culmination of a human pregnancy or gestation period with the birth of one or more newborn infants from a woman's uterus.
DOMESTIC VIOLENCE @	Violence in the family includes battering by intimate partners and others, sexual abuse of female children and young women, marital rape and traditional practices harmful to women. Abuse on domestic workers is not included.
EARLY NEONATAL DEATH *	Death of a newborn in the first six days after birth.
EXTRA SESSION	Hospital : a planned operating session carried out after normal working hours where cold cases only are operated upon. Health Centre : General consultations from 4.00p.m to 6.00p.m on weekdays and from 9.00a.m to 12.00hrs on Sundays and public holidays.
FATALITY RATIO	Usually expressed as a percentage, it is the number of deaths (<i>due to a given disease(s)/specialty</i>) in a given period over the total number of cases discharged and passed away (<i>to the same disease(s)/specialty</i>) in the same period.
FOLLOW-UP	Any subsequent attendance/s for the same problem at close or regular interval/s.
FRESH STILLBIRTH #	Death in utero; failure of the product of conception to show evidence of respiration, heart beat, or definite movement of a voluntary muscle after expulsion from the uterus, with no possibility of resuscitation.
HEALTH INSTITUTION	Health facility
INPATIENT #	A patient who comes to a hospital or other health care facility for diagnosis or treatment and requires an overnight stay.
LATE NEONATAL DEATH *	Death of a newborn occurred after the 7th day but before 28 completed days of life.
LENGTH OF STAY \$	The time in days from start to finish of a consultant episode, ward stay or hospital stay; obtained by dividing the number of discharges and deaths into the total occupied beds.
LIVE BIRTH *	Is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of the pregnancy, which, after such separation, breathes or shows any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached; each product of such a birth is considered liveborn.
LOW BIRTHWEIGHT #	The first weight of the foetus or newborn obtained after birth and weighing less than 2,500 grams (up to and including 2,499 grams).

GLOSSARY

MACERATED STILLBIRTH #	The degenerative changes with discolouration and softening of tissues and eventual disintegration of a foetus retained in the uterus after its death.
MATERNAL DEATH *	Also known as <i>maternal mortality</i> . The death of a woman while pregnant or within 42 days of termination of pregnancy, irrespective of the duration and site of the pregnancy, from any cause related to or aggravated by the pregnancy or its management but not from accidental or incidental causes.
MATERNAL DEATH types *	<p>Direct maternal death: that resulting from obstetric complications of the pregnant state (pregnancy, labour and puerperium), from interventions, omissions, incorrect treatment or from a chain of events resulting from any of the above.</p> <p>Indirect maternal death: that resulting from previous existing disease or disease that developed during pregnancy and which was not due to direct obstetric causes, but which was aggravated by physiologic effects of pregnancy.</p> <p>For the purpose of international reporting, only those maternal deaths occurring before the end of the 42-days reference period are included.</p>
MATERNAL MORTALITY RATE (percentage)	The number of deaths (female) ascribed to complications of pregnancy, childbirth and the puerperium registered during a calendar year, divided by the number of live births registered during the same year and multiplied by 100.
NEW CASE	Two meanings: <ul style="list-style-type: none"> a. the first time a patient encounters the health service, that is, the first <i>attendance</i> b. a <i>disease</i> which occurs for the first time in a patient
OCCUPIED BED DAYS	Total number of days that beds were occupied by patients over a given period of time.
OPERATION #	Any act performed with instruments or by hands of a surgeon. Includes method, operation, procedure, surgery and technique.
OUT PATIENT #	A patient who comes to the hospital, clinic or dispensary for diagnosis and or treatment but does not occupy a bed.
PANCHAKARMA	Forms part of homeopathic medicine. A mind-body healing experience consisting of five therapeutic measures for detoxifying the body, strengthening the immune system and restoring balance and well-being.
PERCENTAGE BED OCCUPANCY	The percentage of the total number of occupied bed days divided by the total number of available bed days over a given period. Also known as <i>percentage occupancy</i> .
PERCENTAGE CHANGE	Is the increase or decrease (with the minus sign) resulting when comparing figures of current year to that of previous year, which is expressed as a percentage. However, the above does not apply when comparing changes in rates.
PERCENTAGE OF LOW BIRTHWEIGHT	The total number of newborns with a birth weight of less than 2.5 kilograms reported during a calendar year, divided by the total number of live births, expressed as a percentage.
PERCENTAGE OF MATERNAL DEATHS	The total number of maternal deaths reported during a calendar year, divided by the total number of live births, expressed as a percentage.
PERCENTAGE OF NEONATAL DEATHS	The total number of neonatal deaths (early and late) during a calendar year, divided by the total number of live births, expressed as a percentage.
PERCENTAGE OF PERINATAL DEATHS	The total number of perinatal deaths (stillbirths + early neonatal deaths) during a calendar year, divided by the total number of births (live births + stillbirths), expressed as a percentage.
PERCENTAGE OF STILLBIRTH	The total number of stillbirths (macerated and fresh) during a calendar year, divided by the total number of births (live births + stillbirths), expressed as a percentage.
PERINATAL DEATH *	Death occurred at 22 completed weeks (154 days) of gestation (the time when birth weight is normally 500 grams), and ends seven completed days after birth.
PROCEDURE	See Operation

GLOSSARY

PREMATURE/PRETERM *	A newborn with less than 37 completed weeks (less than 259 days) of gestation.
REGION	Refers to one of the five health regions of Mauritius
SESSION @	<p>Period of time during which outpatient clinics or surgeries are regularly held.</p> <p>A morning session (AM) occurs from 9.00 hrs to 12.00hrs on weekdays and Saturdays while an afternoon session (PM) starts from 13.00hrs and ends at 16.00hrs on weekdays.</p> <p>For surgeries, every attendance of the Surgeon at any of the undermentioned times is considered as one session.</p> <p>After Normal Working Hours: from 16.00hrs to 9.00hrs of the following day.</p> <p>Week-end: from 12.00hrs on Saturday up to 9.00hrs of the following Monday morning.</p> <p>Public Holiday: from 00.00hr to 24.00hrs of the same day.</p> <p>Extra session : See above</p>
SORTED OPD	Where patients attend to see the specialist on appointment only.
SPECIALIST #	A health care professional with advanced clinical training, who practises a specific branch of medicine.
STILLBIRTH #	The birth of an infant that has died in the womb, after having survived through at least the 28 weeks of pregnancy, earlier instances being regarded as abortion or miscarriage. It is also referred to as intrauterine fetal death (IUFD). Stillbirth can be macerated or fresh.
SURGERY	See Operation
TRANSFER-IN	Is applicable for transfers from other wards of the same hospital only. Patients received from other hospitals should be considered as admissions at the receiving hospital and as discharges by the sending hospitals.
TRANSFER-OUT	Transfer of patients to other wards within the same hospital
TURNOVER INTERVAL \$	The number of days a bed lies vacant between successive patients. It is obtained by dividing the number of discharges and deaths into the total number of unoccupied bed days.
UNSORTED OPD	Where patients attend for non-urgent health-related problems with or without appointment.
