

Digital Health Co. Ltd.

Chief Technical Officer (CTO)

The Digital Health Co. Ltd., operating under the aegis of the Ministry of Health and Wellness, plays a central role in advancing the digital transformation of the public healthcare system in Mauritius. The Company is responsible for developing and implementing modern technological solutions, including the national e-Health programme, to support the continuous improvement of healthcare delivery across all public health institutions.

The Company is inviting applications from suitably qualified and experienced candidates for the position of **Chief Technical Officer (CTO)**.

Role Overview

The Chief Technical Officer (CTO) will be responsible for providing strategic and technical leadership in the design, development, implementation, and optimisation of digital health systems across the public healthcare sector.

The CTO will oversee the deployment of the national e-Health platform and associated technologies, ensuring seamless integration, operational efficiency, and alignment with national health objectives.

Key Responsibilities

- Lead the **technical strategy and architecture** for the national e-Health ecosystem
- Oversee the **design, development, and implementation** of digital health solutions across hospitals and healthcare facilities
- Drive **digital transformation initiatives**, including process optimisation and automation of healthcare workflows
- Ensure **effective integration** of systems across departments, institutions, and platforms
- Supervise the **deployment, configuration, and rollout** of IT systems across multiple sites

- Provide leadership in **technology delivery**, ensuring projects are completed on time and aligned with strategic goals
- Collaborate with key stakeholders, including the Ministry, healthcare professionals, and technical partners
- Ensure **data security, system reliability, and compliance** with national and international standards
- Lead and mentor multidisciplinary technical teams
- Monitor system performance and drive **continuous improvement and innovation**

Qualifications

- A Bachelor's Degree in Computer Science, Information Technology, Software Engineering, or a related field acceptable to the Board.
- A Postgraduate qualification in Information Technology, Digital Transformation, or a related discipline acceptable to the Board.
- Professional certifications in relevant fields such as enterprise systems, network engineering, cloud technologies, or automation platforms will be an advantage.
- Additional certifications in recognised technologies or platforms will be considered an advantage.

Experience

- At least **10 years of progressively responsible experience** in Information Technology
- Minimum **5 years in a senior technical leadership role**
- Proven experience in:
 - **Enterprise systems implementation and integration**
 - **Digital transformation programmes**
 - **Technology delivery and large-scale system deployment**
- Demonstrated experience in:
 - Designing and implementing **automation solutions and process optimisation initiatives**
 - Managing **end-to-end lifecycle** of digital systems
 - Delivering solutions across **multiple sites or institutions**
- Experience in the **public sector or healthcare environment** will be an advantage

Core Competencies

- Strong understanding of **enterprise IT systems and digital platforms**
- Solid grasp of **process optimisation, automation, and system integration**
- Ability to translate strategic vision into **practical, scalable technology solutions**
- Strong leadership, stakeholder management, and communication skills
- Excellent analytical and problem-solving abilities

Desirable Criteria

- Experience with **Robotic Process Automation (RPA)** or intelligent automation
- Exposure to **process design and workflow optimisation frameworks**
- Experience in **large-scale digital transformation or system modernisation programmes**
- Familiarity with integrating multiple platforms within complex environments

Remuneration

A competitive package commensurate with qualifications and experience.

Mode of Application

Interested candidates are invited to download the prescribed Application Form from our website, <https://health.govmu.org>, and submit the duly completed form together with a detailed Curriculum Vitae (CV) and a Motivation Letter.

Applications should be addressed to:

Digital Health Co. Ltd
Level 4, NexSky Building
Ebene

Deadline for submission: **8 May 2026 at 15:00 hours.**

The Company reserves the right to call only the most suitably qualified candidates for interviews and not to make any appointment following this advertisement.
